## PREFACE

Indian Nursing Council (INC) is a National statutory body. INC's main function is to establish Uniform Standards of nursing education for nursing personnel and to prescribe the syllabus and regulation for various categories of nursing personnel.

Indian Nursing Council has revised the syllabus and regulations for the General Nursing and Midwifery training programme. The revision was undertaken by having series of consultations with the various stake holders. One of the major change in the revised curriculum is duration of the programme. The duration of the programme has been reduced from 3 ½ years to 3 years, without compromising course content and objectives of the course, internship has been integrated within the 3 years course.

Another change in the revision of the curriculum is format of the syllabus. The format of the curriculum changed to include the course description, general objective, learning objectives, course content, number of hours for each unit, their teaching learning activities and assessment methods. For each subject which had practical requirements, a detailed description of the area with course description, general objectives, area of practice, time to be spent in each area with the objectives for each area, the skills to be acquired, the assignments and the assessment methods are clearly spell out. This will facilitate for the teachers for effectively covering the syllabus and also guide the nursing teachers to implement the curriculum in totality covering all aspect of the theory and practical component of the programme.

I am confident that this revised syllabus and regulations will be able to prepare Nurses to provide qualitative Nursing care in the hospital and also in the community.

I also take this opportunity to acknowledge the contribution Nursing Education Committee Members of INC, Nursing Experts, Vice-President, INC the then Secretary, INC and Joint Secretary of INC in preparation of the revised GNM syllabus.

**(T. Dileep Kumar)**

President Indian Nursing Council Ex-  
Nursing Adviser to Govt. of India

## INTRODUCTION & PHILOSOPHY

Nursing is a profession within the Health Care Sector focused on the care of individuals, families and communities so they may attain maintain or recover optimal health and quality of life.

Nurses care for individuals of all ages and all cultural backgrounds who are healthy and ill in a holistic manner based on the individuals physical, emotional, psychological, intellectual, social and spiritual needs. The profession combines physical sciences, social science and technology in caring for those individuals.

Indian Nursing Council believes in concept of Health laid down by World Health Organisation (WHO) “Health is a state of complete physical, mental and social wellbeing and not merely the absence of disease or infirmity.”

In order to provide qualitative Nursing Care there is a need to train nurses effectively to work as a team member of health care delivery system. It is therefore their training should involve positive attitudes, knowledge, skills, professional expertise, latest trends in health care and health care needs of the community and the country as a whole.

As per the definition of Virginia Avenel Henderson “ The Unique function of the nurse is to assist the individual, sick or well, in the performance of those activities contributing to health or its recovery (or to peaceful death) that he would perform unaided if he had the necessary strength, will or knowledge.”

As per the International Council of Nurses “ Nursing encompasses autonomous and collaborative care of individuals of all ages, families, groups and communities, sick or well and in all settings. Nursing includes the promotion of health, prevention of illness, and the care of ill, disables and dying people. Advocacy, promotion of a safe environment, research, participation in shaping health policy and in patient and health systems management and education are also key nursing roles.”

Indian Nursing Council recognized that basic nursing education is a formally recognized programme of students providing a broad and sound foundation in the behavioural, life and nursing sciences for the practice of nursing for a leadership role and for the post basic education in specialties for advanced nursing practice. The Country believes that this basic course in nursing should prepare nurses for occupying first level positions in nursing in all kinds of health care settings. The Council recognizes that nursing is a profession which is influenced by advances in science and technology, it believes that skills in all aspects of communication are also essential learning and for the practice of nursing.

The Council also recognizes that the nature of nursing is such that a substantial portion of learning of the study is acquired in clinical field(s) of practice. It further recognised the interdependence of nursing to allied professions and occupations in prevention of diseases, promotion, maintenance and restoration of health.

The Council believes that it has a responsibility in helping the students to develop pride in their profession besides keeping them abreast with current knowledge and professional trends for a successful career ahead.

## Aims

The basic Diploma course in General Nursing and Midwifery is geared to the health needs of the individuals, family, community and the country at large.

The aims of the Diploma in General Nursing and Midwifery programme are:

1. To prepare nurses with a sound educational programme in nursing to enable them to function as efficient members of the health team, beginning with the competencies for first level positions in all kinds of health care settings.
2. To help nurses develop an ability to co-operate and co-ordinate with members of the health team in the prevention of disease, promotion of health and rehabilitation of the sick.
3. To help nurses in their personal and professional development, so that they are able to make maximum contribution to the society as useful and productive individuals, citizens as well as efficient nurses.
4. To serve as a base for further professional education and specialization in nursing.
5. To prepare nurses to keep pace with latest professional and technological developments and use these for providing nursing care service.

## OBJECTIVES

The nurse on completion of this course will be able to:

1. Demonstrate competency in providing health care to individual, sick or well, using nursing process.
  - Assess the nursing need of clients from birth of death.
  - Plan and carry out appropriate action to meet nursing needs.
  - Provide effective nursing care for maintain best possible level of health in all aspects.
  - Promote self care in people under their care.
  - Apply problem solving techniques in nursing practice.
  - Evaluate effectiveness of nursing care.
  - Apply problem solving techniques in nursing practice.
  - Evaluate effectiveness of nursing care.
2. Apply knowledge from the humanities, biological and behavioral sciences in functioning as a nurse.
3. Function effectively with members of the health team and community applying the knowledge of human relations and communication skills in her work.
4. Participate as member of the health team in delivery of curative preventive, promotive and rehabilitative health care service.
5. Mobilize community resources and their involvement in working with the communities.
6. Demonstrate use of ethical values in their personal and professional life.
7. Demonstrate interest in activities of professional organization.
8. Recognize the need for continuing education for professional development.
9. Demonstrate basic skills in teaching patients and giving nursing care to them.
10. Demonstrate basic skills in administration and leadership while working with other members of health team and community.
11. Assist in research activities.

---

## **REGULATIONS**

---

## Guidelines for Establishment of New General Nursing and Midwifery School of Nursing

1. Any organization under: (i) Central Government/State Government/Local body (ii) Registered Private or Public Trust (iii) Missionary or any other organization registered under Society Registration Act (iv) Company incorporated under section 8 of Company's act are eligible to establish General Nursing and Midwifery School of Nursing.
2. Any organization having 100 bedded Parent (Own) hospital is eligible to establish General Nursing Course.
3. Above organization shall obtain the Essentiality Certificate/No Objection Certificate for the General Nursing and Midwifery programme from the respective State Government. The institution name along with Trust Deed/Society address shall be mentioned in No Objection Certificate/Essentiality Certificate.
4. An application form to establish Nursing programme is available on the website viz., [www.indiannursingcouncil.org](http://www.indiannursingcouncil.org), which shall be downloaded. Duly filled in application form with the requisite documents mentioned in the form shall be submitted before the last date as per the calendar of events of that year.
5. The Indian Nursing Council on receipt of the proposal from the Institution to start nursing programme, will undertake the **first inspection** to assess suitability with regard to physical infrastructure, clinical facility and teaching faculty in order to give permission to start the programme.
6. After the receipt of the permission to start the nursing programme from Indian Nursing Council, the institution shall obtain the approval from the State Nursing Council and Examination Board.
  - Before the admission of the students next year institute will submit the renewal/validity form as per the calendar of events every year. However INC may conduct yearly inspection.
7. Institution will admit the students only after taking approval of State Nursing Council Examination Board.

### Note:

- If, no admission are made for two consecutive academic years then it shall be considered as closed for the said programme.
- If the institution wants to restart the programme they have to submit the first inspection fees within 5 years i.e., from the year they did not have admissions. Guidelines of the year wherein institute was first permitted will be applicable.

## PHYSICAL FACILITIES

### Teaching Block:

The School of Nursing should have a separate building/teaching block\*. For a School with an annual admission capacity of **40-60** students, the constructed area of the School should be **20000** square feet.

The School of Nursing can be in a rented/leased building for first two years. After two years institute shall have own building in an institutional area. Otherwise Rs.50,000 penalty has to be paid for every year. During the penalty period institute shall be able to construct own building. If the institution is not able to have their own building, permission/suitability will be withdrawn and however institution will be given chance to submit the proposal towards first inspection with the latest guidelines.

Adequate hostel/residential accommodation for students and staff should be available in addition to the above mentioned built up area of the Nursing School respectively. The details of the constructed area are given below for admission capacity of **40-60** students:

S. No.	Teaching Block	Area (Figures in Sq. feet)
1.	Lecture Hall	3 @ 900 = 2700
2.	(i) Nursing foundation lab	1500
	(ii) CHN & Nutrition Lab	900
	(iii) Advance Nursing Skill Lab	900
	(iv) OBG and Paediatrics Lab	900
	(v) Pre-clinical science lab	900
	(vi) Computer Lab	1500
3.	Multipurpose Hall	3000
4.	Common Room (Male & Female)	1000
5.	Staff Room	1000
6.	Principal Room	300
7.	Vice Principal Room	200
8.	Library	1800
9.	A.V. Aids Room	600
10.	Faculty Room	1800
11.	Provisions for Toilets	1000
<b>Total</b>		<b>20000 Sq. Ft.</b>

**Note:**

- \*1. Nursing Educational institution should be in Institutional area only and not in residential area.
- \*2. If the institute has non-nursing programme in the same building, Nursing programme should have separate teaching block.
- \*3. Shift-wise management with other educational institutions will not be accepted.
- \*4. Separate teaching block shall be available if it is in hospital premises.
- \*5. Proportionately the size of the built-up area will increase according to the number of students admitted.
- \*6. School and College of nursing can share laboratories, if they are in same campus under same name and under same trust, that is the institution is one but offering different nursing programmes. However, they should have equipments and articles proportionate to the strength of admission. **And the class rooms should be available as per the requirement stipulated by Indian Nursing Council of each programme.**

**Hostel Block:**

Hostel Provision is Mandatory and shall also be owned by the institute within the period of two years

S. No.	Hostel Block	Area (Figures in Sq feet)
1.	Single Room	9000 (50 sq. ft. for each student)
	Double Room	
2.	Sanitary	One latrine & One Bath room (for 60 students) – $600 \times 3 = 1800$
3.	Visitor Room	500
4.	Reading Room	250
5.	Store	500
6.	Recreation Room	500
7.	Dining Hall	3000
8.	Kitchen & Store	1500
9.	Warden's room	450
<b>Total</b>		<b>17500 Sq. Ft.</b>

**Grand Total (total requirement for the nursing programme): - 20000 (Teaching Block) + 17500 (Hostel Block) = 37500 Sq. Ft.**

**1. Class rooms**

There should be at least three classrooms with the capacity of accommodating the number of students admitted in each class. The rooms should be well ventilated with proper lighting system. There should be built in White Boards. Also there should be a desk/ dais/a big table and a chair for the teacher and racks/cupboards for keeping teaching aids or any other equipment needed for the conduct of classes.

## 2. Laboratories

There should be at least Six laboratories as listed below:-

1	Nursing Practice Laboratory
2	Community Health Nursing & Nutrition Laboratory
3	Advance Nursing Skill Laboratory
4	Computer Laboratory
5	OBG & Paediatric Laboratory
6	Pre Clinical Sciences Laboratory

- a) **Nursing Practice Laboratory:** There should be demonstration beds with dummies, mannequins in proportion to the number of students practicing a nursing procedure at a given point of time (the desired ratio being 1 bed: 6 practicing students).

It should be fully equipped with built-in-cupboards and racks. Wash-basins with running water supply, electric fitting, adequate furniture like table, chairs, stools, patient lockers footsteps etc. Sufficient Necessary inventory articles should be there i.e. at least 10-12 sets of all items needed for the practice of nursing procedure by the students.

- b) **Community Practice & Nutrition Laboratory:** It should have all required articles needed for practicing nursing procedures in a community set-up. The laboratory should give appearance of that of a rural setting, with community maps, records put up on display & cupboards.

It should also have facilities for imparting basic knowledge of various methods of cooking for the healthy as well as for the sick. The furnishing and equipment should include work-tables, cooking cutlery, trays, plates, dietetic scales, cooking utensils, microwave, racks/ shelves, refrigerator, pressure cookers, mixie and cupboards for storage of food items. The food items shall be purchased for the conduct of practical classes as and when required. Sets of crockery and cutlery for preparation, napkins for serving and display of food also should be there.

- c) **Computer Laboratory:** It can be shared with other departments.

- d) **OBG & Pediatric Laboratory:** Laboratory should have equipment and articles as mentioned in laboratory equipments and articles.

- e) **Advance Nursing Skill Laboratory:** There should be simulators used teach, practice & learn advance skills e.g., administration of tube- feeding, tracheostomy, gastrostomy etc. I/V injection, BLS, newborn resuscitation model, etc. The lab should have computers, internet connection, monitor used in Critical Care Units.

- f) **Pre-clinical Science lab:** It is the laboratory of Biochemistry, Anatomy, and Microbiology. The laboratory articles mentioned in the laboratory equipment & articles shall be available.

## 3. Multipurpose Hall

It can be utilized for hosting functions of the college, educational conferences/ workshops, CNES examinations etc. It should have proper stage with green room facilities. It should be well –ventilated and have proper lighting system. There should be arrangements for the use of all kinds of basic and advanced audio-visual aids.

#### **4. Library**

There should be a separate library in the school. It should be easily accessible to the teaching faculty and the students, during school hours and extended hours also.

It should have comfortable seating arrangements for half of the total strength of the students and teachers in the school.

There should be separate budget for the library. The library committee should meet regularly for keeping the library updated with current books, journals and other literature. Internet facility should be provided in the library.

The library should have proper lighting facilities and it should be well-ventilated. It should have a cabin for librarian with intercom phone facility.

There should be sufficient number of cupboards, books shelves and racks with glass doors for proper and safe storage of books, magazines, journals, newspapers and other literature. There should be provision for catalogue-cabinets, racks for student bags etc., book display racks, bulletin boards and stationery items like index cards, borrowers cards, labels and registers. Current books, magazines, journals, newspaper and other literature should be available in the library.

A minimum of 500 of different subject titled nursing books (all new editions), in the multiple of editions, 3 kinds of nursing journals, 3 kinds of magazines, 2 kinds of newspapers and other kinds of current health related literature should be available in the library.

There should be a separate record room with steel racks, built-in shelves and racks, cupboards and filing cabinets for proper storage of records and other important papers/ documents belonging to the college.

#### **5. Offices Requirements**

##### ***a. Principal's Office***

There should be a separate office for the Principal with attached toilet and provision for visitor's room. Independent telephone facility is a must for the Principal's office with intercom facility connected/linked to the hospital and hostel.

##### ***b. Office for Vice-Principal***

There should be a separate office for the Vice-Principal with attached toilet and provision for visitor's room. Independent telephone facility is a must for Vice-principal's office with intercom facility connected/linked to the hospital and hostel.

##### ***c. Faculty Room***

There should be adequate number of office rooms in proportion to the number of teaching faculty. One office room should accommodate 2 teachers only. Separate toilet facility should be provided for the teaching faculty with hand washing facility. There should be a separate toilet for male teachers.

##### ***d. Staff Room***

One separate office room for the office staff should be provided with adequate toilet facility. This office should be spacious enough to accommodate the entire office staff with separate cabin for each official. Each office room should be adequately furnished with items like tables, chairs, cupboards, built –in racks and shelves, filing cabinets and book cases. Also there should be provision for equipments like photocopy, computers and telephone.

## **6. Common Rooms**

Common rooms should be provided. One for the teaching faculty, one for the student and one for the office staff. Sufficient space with adequate seating arrangements, cupboards, lockers, cabinets, built-in-shelves and racks should be provided in all the common rooms. Toilet and hand washing facilities should be made available in each room.

## **7. Audio-Visual Aids Room & Store Room**

This room should be provided for the proper and safe storage of all the Audio-Visual Aids. The School should possess all kind of basic as well as advanced training aids like chalk boards, overhead projectors, slide and film-strip projector, models specimen, charts and posters, T.V. & V.C.R., Photostat machine, tape recorder and computers, LCD, laptop.

It should be provided to accommodate the equipments and other inventory articles which are required in the laboratories of the college. This room should have the facilities for proper and safe storage of these articles and equipments like cupboards, built-in-shelves, racks, cabinets, furniture items like tables and chairs. This room should be properly lighted and well-ventilated.

## **8. Other Facilities**

Safe drinking water and adequate sanitary/toilet facilities should be available for both men and women separately in the school. Toilet facility to the students should be there along with hand washing facility.

## **9. Garage**

Garage should accommodate a **50** seater vehicle.

## **10. Fire Extinguisher**

Adequate provision for extinguishing fire should be available as per the local bye-laws.

## **11. Playground**

Playground should be spacious for outdoor sports like Volleyball, football, badminton and for Athletics.

### **Hostel Facilities:**

There should be a separate hostel for the male and female students. It should have the following facilities.

#### **1. Hostel Room**

It should be ideal for 2 students. The furniture provided should include a cot, a table, a chair, a book rack, a cupboard or almirah for each student.

#### **2. Toilet and Bathroom**

Toilet and bathroom facilities should be provided on each floor of the students hostel. Geysers in bathroom and wash basins should also be provided.

### **3. Recreation**

There should be facilities for indoor and outdoor games. There should be provision for T.V., radio and video cassette player.

### **4. Visitor's Room**

There should be a visitor room in the hostel with comfortable seating, lighting and toilet facilities.

### **5. Kitchen & Dining Hall**

There should be a hygienic kitchen and dining hall to seat at least 80% of the total students strength at one time with adequate tables, chairs, water coolers, refrigerators and heating facilities. Hand washing facilities must be provided.

### **6. Pantry**

One pantry on each floor should be provided. It should have water cooler and heating arrangements.

### **7. Washing & Ironing Space**

Facility for drying and ironing clothes should be provided in each floor.

### **8. Warden's Room**

Warden should be provided with a separate office room besides her residential accommodation. Intercom facility with school & hospital shall be provided.

9. Telephone facility accessible to students in emergency situation shall be made available.

### **10. Canteen**

There should be provision for a canteen for the students, their guests, and all other staff members.

### **11. Transport**

School should have separate transport facility under the control of the Principal. 25 and 50 seats bus is preferable and number of transport shall be as per students strength.

### **Staff for the Hostel**

1. Warden (Female) -3: Qualification- B.Sc. Home Science or Diploma in Housekeeping/Catering. Minimum three wardens must be there in every hostel for morning, evening and night shifts. If number of students are more than 150, one more warden/ Asst. Warden/ House keeper for every additional 50 students.
2. Cook-1: For every 20 students for each shift.
3. Kitchen & Dining Room helper- 1: For every 20 students for each shift.
4. Sweeper-3
5. Gardener-2
6. Security Guard/ Chowkidar-3

## ANTI RAGGING

1. Notice/Circular for prohibition of Ragging shall be available on
  - Notice Boards
  - Admission Brochure/Prospectus
2. Display Posters/Charts on Prohibition of Ragging in common places.
3. Constitute :-
  - Anti- ragging committee
  - Anti- ragging squad

} with name designation & Telephone no.
4. Leaflet given to fresher's students to detail out the telephone no. mentioned to whom to approach in case of ragging including Anti ragging committee/squad addresses and telephone numbers.
5. Constituting a mentoring cell consisting of students volunteering to be mentors for fresher's (one mentor of six fresher's and one mentor of a higher level for six mentors of the lower level.)
6. Online Affidavit (1) by the student (2) by the parent shall be taken as per the UGC notification from time to time.
7. Display at multiple places- notices, common rooms, canteens, classrooms, library, toilets, corridors etc. Anti-ragging help line for students.
8. Complaint box placed at places accessible to students.

## Budget

In the overall budget of the Institution, there should be provision for school budget under a separate head. Principal of the school of Nursing should be the drawing and disbursing officer.

## NURSING TEACHING FACULTY

The Principal should be the administrative head of the school. He/She should hold qualification as laid down by INC. The Principal should be the controlling authority for the budget of the school and also be the drawing and disbursing officer. The Principal and Vice- Principal should be Gazetted officers in Government Schools and of equal status (though non-Gazetted) in non-government Schools.

**Qualification of Teaching Staff for General Nursing and Midwifery programme with 40 students intake:**

**Ratio of Female and Male Nursing Teachers in School Programme**

- **For every 7 female nursing teacher there shall be 3 male nursing teacher i.e. 7:3 female to male nursing teacher ratio.**

[i.e., maximum of 30% will be male] it does not direct that female teachers to be replaced by male.

The following is for 60 students intake:

S. No.	Teaching faculty	Qualification & Experience	No. Required
(i)	Principal	M.Sc. Nursing with 3 years of teaching experience or B.Sc. Nursing (Basic) / Post Basic with 5 years of teaching experience.	1
(ii)	Vice-Principal	M.Sc. Nursing or B.Sc. Nursing (Basic) / Post Basic with 3 years of teaching experience.	1
(iii)	Tutor	M.Sc. Nursing or B.Sc. Nursing (Basic/Post Basic) or <b>Diploma in Nursing Education and Administration</b> with 2 years of professional experience.	16
<b>Total</b>			<b>18</b>

**Note:**

- Teacher student ratio should be 1:10 on sanctioned strength of students.
- One of the Tutors need to stay at the community health filed by rotation.
- The salary structure of the teaching faculty in private Schools of Nursing should not be less than what is admissible in the schools of the nursing under State/Central Government.
- Nursing service personnel should actively participate in instruction, Supervision, guidance and evaluation of student in the clinical and field/ community practice areas. The teaching faculty of the School of nursing should work in close coordination with nursing service personnel.
- The teaching faculty of the school and the nursing service personnel should be deputed to attend short term educational courses/ workshops/ conferences etc. to update their knowledge.
- It is mandatory for school authorities to treat teaching faculty of the school of nursing on duty when nominated/ selected for the purpose of examination or inspection or inspection by the Council.
- All nursing faculty including Principal shall spend at least four hours each day in the clinical area for clinical teaching and / or supervision of care by the students.

- 50% of the non-nursing subjects should be taught by the nursing teachers. However, it will be supplemented by the external faculty who are doctors or candidates having PG Qualification in the requisite subject. **Nursing teachers who are involved in non-nursing subjects shall be examiners for the programme.**

### External FACULTY

Besides the regular teaching faculty in the school of Nursing, there should be provision for external lectures for teaching the students. They should possess the desired qualification in the respective subjects which are to be taught. Remuneration of these external lecturers is to be paid as per the institute/ govt. policy. The external Faculty may comprise Medical Faculty and Scientists, General Educationist including teaching experts in English, computer Education. Physical Education/ Yoga, Psychologists, Sociologists, Health Economist/ Statistician, Nutritionist.

### School Management Committee

Following members should constitute the Board of management of the school.

Principal	Chairperson
Vice- Principal	Member
Tutor	Member
Chief Nursing Officer/ Nursing Superintendent	Member
Administrative staff for School of Nursing	Member

### Additional Staff for School of Nursing

Stenographer/Personal Assistant	One	} Should have Knowledge of computer
Senior Clerk cum Cashier/ Accountant	One	
Junior Clerk cum Typist	One	
Librarian	One	
Laboratory Attendant	One	
Chowkidar/ Watchman	Two	
Driver	One for each Vehicle	
Cleaner	One for each Vehicle	
Peon	Three	
Sweeper/ Safai Karmachari	Two	
Machine (Duplicating/ Xerox) Operator	One	

**NB: Provision should be made to have leave reserve staff in addition to the regular staff according to rules**

## CLINICAL FACILITIES

I. Own Hospital: School of nursing should have a **100** bedded Parent (Own Hospital).

II. Additional affiliation of hospital:

If all the required learning experience are not available in the parent hospital, the students should be sent to affiliated hospital/ agencies/ Institutions where it is available.

i. Criteria for Affiliation

The types of experience for which a nursing school can affiliate are:

- Community Health Nursing
- Communicable diseases
- Mental Health (Psychiatric) Nursing
- Specialities like Cardiology, Neurology, Oncology Nephrology etc.

ii. The size of the Hospital/Nursing Home for affiliation:-

- Should not be less than **100** beds apart from having own hospital.
- Maximum 3 Hospital can be attached with 100 beds each.

The Physical facilities staffing and equipment of the affiliated hospitals should be of the same standard as required in the hospital.

The Nursing Staff of the affiliated hospital should be prepared to recognize the institutional student with student status as per their educational programme.

III. Distribution of beds in different areas

Medical	45
Surgical	45
Obst. &Gynaecology	45
Pediatrics	30
Ortho	15
Psychiatric	50

IV. Bed Occupancy of the Hospital should be minimum **75%**.

V. Other Specialties/Facilities for clinical experience required are as follows:

- Major OT
- Minor OT
- Dental
- Eye/ENT
- Burns and Plastic
- Neonatology with Nursery

Communicable disease  
 Community Health Nursing  
 Cardiology  
 Oncology  
 Neurology/Neuro-surgery  
 Nephrology etc.  
 ICU/ICCU

- VI. There should be a variety of patients of all age groups in all the clinical areas where the students are posted for obtaining the requisite learning experiences.
- VII. The Nursing Staffing norms in the affiliated Hospital should be as per the INC norms.
- VIII. The affiliated Hospital should give student status to the candidates of the nursing programme.
- IX. Maximum distance of the affiliated hospitals should be within 30 kms.
- X. 1:3 student patient ratio to be maintained.
- XI. For Tribal and hilly area the maximum distance is 50 kms

**If the institution is having both General Nursing and Midwifery and B.Sc. (N) programme, it would require to ensure 1:3 student patient ratio based on intake for each programme.**

**Distribution of Beds**

At least one third of the total number of beds should be for medical patients and one third for surgical patients. The number of beds for male patients should not be less than 1/6th of the total number of beds i.e. at least 40 beds. There should be minimum of 100 deliveries per month. Provision should be made for clinics in health and family welfare and for preventive medicine.

**Staffing**

- 1. Chief Nursing Officer (C.N.O) - for 500 Beds and above. (Qualification as for Principal, SON)
- 2. Nursing Superintendent (N.S)-1 (Qualification as for Principal, SON).
- 3. Deputy Nursing Superintendent (D.N.S)-1 (qualification as for vice-principle, SON).
- 4. Assistant Nursing Superintendent (A.N.S)-2 and for every additional 50 beds one more (qualification as for vice- Principle, SON).

NORMS RECOMMENDED BY EXPERTS COMMITTEE ON HEALTH MANPOWER PRODUCTION AND MANAGEMNET (RESOLUTION OF FOURTH CONFERENCE OF CENTRAL COUNCIL OF HEALTH AND FAMILY WELFARE, ON NURSING, 1995).

Categories	Requirements
1. Nursing Superintendent	1:200 beds
2. Dy. Nursing Superintendent	1:300 beds
3. Departmental Nursing Supervisors/ Nursing Sisters	7:1000( Plus one additional 100 beds

4. Ward Nursing Supervisors/ Sisters	8:200+30% leave Reserve
5. Staff nurse for wards	1:3 (of 1:9 each Shift)+30% leave Reserve
6. For OPD, blood Bank, X-ray Diabetic Clinic CSR etc.	1:100 OPD Patients (1 bed:5 OPD Patients)+30% leave Reserve.
7. For Intensive Care Unit (8beds ICU for 200 beds)	1:1 (of 1:3) for each (shift +30% leave Reserve)
8. For specialized departments and clinic such as OT, Labour room.	8:200 + 30% leave Reserve

### **Justification**

1. Needs may vary from one hospital to another, Depending on its size and service rendered, more staff than anticipated will be required.
2. Special attention is needed for supervision of patient care in the evening and night shifts.
3. 30% leave reserve posts are mandatory.

### **Other point to be considered**

- a. The staff of the parent hospital should be strictly as per the criteria laid down by INC in terms of doctors, nurses and paramedical staff.
- b. Wards/Area/OPDs/OTs/Clinical departments etc. must have adequate coverage of the staff in all the shifts to ensure that students are only for attending clinical experience in these areas and not utilized for service purposes.
- c. Continuing/ in-service education programme must be attended by all staff nurses to keep themselves abreast with latest technologies and sophistication used in day to day patient care in these areas.

### **Community Health Nursing Field Practice Area**

The students should be sent for community health nursing experience in urban as well as rural field area. Institute can be attached to primary health centre. A well setup field teaching centre should be provided with facilities for accommodation of at least 10-15 students and one staff member at a time. Peon, cook and chowkidar should be available at health centre. Each school of Nursing should have its own transport facilities and it must be under direct control Principal. The security of staff and students should be ensured.

## ADMISSION TERMS AND CONDITIONS

### 1. Minimum education eligibility criteria for admission to GNM:

- 10+2 with English and must have obtained a minimum of 40% at the qualifying examination and English individually from any recognized board. Candidates are also eligible from State Open School recognized by State Government and National Institute of Open School (NIOS) recognized by Central Government. However Science is preferable.
- 10+2 with English having 40% of marks in vocational ANM course from the school recognized by Indian Nursing Council
- 10+2 with English having 40% of marks in Vocational Stream-Health care Science from a recognized CBSE board/State/Centre
- Registered ANM with pass mark.

### For foreign nationals

- The entry qualification equivalency i.e., 12th standard will be obtained by Association of Indian Universities, New Delhi. Institution, State Nursing Council will be responsible to ensure that the qualification and eligibility will be equivalent to what has been prescribed as above

### 2. Reservation

- a) For disabled candidates: 3% Disability reservation to be considered with a disability of locomotor to the tune of 40% to 50% of the lower extremity and other eligibility criteria with regard to age and qualification will be same as prescribed for each nursing programme.

**Note:** A committee to be formed consisting of medical officer authorized by medical board of state government and a nursing expert in the panel which may decide whether the candidates have the disability of locomotor of 40% to 50%.

- b) 5% of total marks is relaxed for SC/ST candidates  
c) Any other reservation as per the State Govt.

**Note:** Reservation shall be applicable within the sanctioned number of the seats by INC and not above it.

### 3. Admission of students shall be once in a year.

### 4. Students shall be medically fit.

### 5. Minimum age for admission will be 17 years. (as on 31st December of that year) The upper age limit is 35 yrs. For ANM/ for LHV, there is no age bar.

### Admission / Selection Committee

This committee should comprise of:

- Principal Chairperson
- Vice-Principal

- Senior Tutor
- Chief Nursing Officer or Nursing Superintendent

## **ADMISSION STRENGTH**

**Admission / Intake of candidates shall be as per sanctioned strength permitted by INC.**

### **Health Services**

There should be provisions for the following health services for the students.

- (a) An annual medical examination.
- (b) Vaccination against Tetanus, hepatitis B or any other communicable disease as considered necessary.
- (c) Free medical care during illness.
- (d) A complete health record should be kept in respect of each individual student. The question of continuing the training of a student, with long term chronic illness, will be decided by the individual school.

### **Records**

Following are the minimum records which needs to be/should be maintained in the school

- a) For Students
  1. Admission record
  2. Health record
  3. Class attendance record
  4. Clinical and Field Experience record
  5. Internal assessment record for both theory and practical
  6. Mark Lists (State Council/Board Results)
  7. Record of extracurricular activities of student (both in the school as well as outside)
  8. Leave record
  9. Practical record books – Procedure book and Midwifery record book to be maintained as prescribed by INC
- b) For each academic year, for each class/batch
  1. Course contents record (for each subjects)
  2. The record of the academic performance
  3. Rotation plans for each academic year
  4. Record of committee meetings
  5. Record of the stock of the school
  6. Affiliation record
  7. Grant-in-aid record (if the school is receiving grant-in-aid from any source like state Govt. etc.)
  8. Cumulative record.

Record of educational programmes organized for teaching faculty and student, both in the school as well as outside.

Annual reports (Record) of the achievement of the school prepared annually.

School of nursing should possess detailed and up-to-date record of each activity carried out in the school.

### **Transcript**

All institutions to issue the transcript upon completion of the course and to **submit only one single copy of transcript** per batch to respective State Nursing and Midwifery Registration Council.

## Course of Instruction

### FIRST YEAR

Subjects	Theory (hours)	Practical (hours)	
<b>Bio Sciences</b>	<b>120</b>		
- Anatomy & Physiology.	90		
- Microbiology	30		
<b>Behavioral Sciences</b>	<b>60</b>		
- Psychology	40		
- Sociology	20		
<b>Nursing Foundations</b>	<b>210</b>	200 (lab)	680(clinic)
- Fundamentals of Nursing.	190	(22 weeks)	
- First aid	20		
Community Health Nursing	<b>180</b>	<div style="display: flex; align-items: center; justify-content: center;"> <span style="font-size: 3em; margin-right: 10px;">}</span> <div style="text-align: center;"> <p>320</p> <p>8 weeks</p> </div> </div>	
- CHN-I	80		
- Environmental Hygiene	30		
- Health Education & Communication Skills	40		
- Nutrition	30		

<b>Subjects</b>	<b>Theory (hours)</b>	<b>Practical (hours)</b>
English	30	-
Computer Education	15	15
Co-curricular activities	10	-
<b>TOTAL</b>	<b>625 (16 wks)</b>	<b>1215 (30 wks)</b>
	<b>1840</b>	

## SECOND YEAR

<b>Subjects</b>	<b>Theory (hours)</b>	<b>Practical (hours)</b>
Medical Surgical Nursing-I	120	800 (20 wks)
Medical Surgical Nursing -II	120	
Mental Health Nursing	70	320 (8wks)
Child Health Nursing	70	320 (8wks)
Co-curricular activities	20	-
<b>TOTAL</b>	<b>400 (10 weeks)</b>	<b>1440 ( 36 weeks)</b>
	<b>1840</b>	

## THIRD YEAR Part-I

<b>Subjects</b>	<b>Theory (hours)</b>	<b>Practice (hours)</b>
Midwifery &Gynaecological Nursing	140	560 (14 wks)
Community Health Nursing-II	90	160 (4 wks)
Co-curricular	10	-
<b>TOTAL</b>	<b>240 hours (6 weeks)</b>	<b>720 hours (18 weeks)</b>
	<b>960</b>	

## THIRD YEAR Part-II (Integrated supervised Internship)

<b>Theory Subjects</b>	<b>Theory (hours)</b>
Nursing Education	20
Introduction to Research and statistics	30
Professional Trends & Adjustments.	30
Nursing Administration & Ward Management	40
<b>TOTAL</b>	<b>120 (2 weeks)</b>

Clinical Areas	Clinical Hours/ weeks *
Medical Surgical Nursing	288(6 wks)
Community Health Nursing	288(6 wks)
Child Health Nursing	96(2 wks)
Midwifery and Gynaecological Nursing	384(8 wks)
Mental Health Nursing	96(2 wks)
<b>TOTAL</b>	<b>1152 (24 weeks)</b>

Night duty should be given in clinical area(s) in rotation

\*43 hours per week for clinical and 5 hours per week for theory.

The students posted in the clinical areas should be accompanied by teaching faculty of the school.

The same practice must be followed when student are posted for requisite clinical experience to affiliated Hospital/Agency /Institution.

The Nursing teachers must actively participate in supervising, guiding and evaluating students in the hospital wards, health centers and in the community.

1:10 teacher student ratio to be maintained during the supervised clinical practice

#### SUMMARY OF TOTAL CLINICAL EXPERIENCE

Area	1st Year	2nd Year	3rd Year –I	3rd Year –II (Internship)
Nursing Foundation	880 (22)	-	-	-
Community Health Nursing	320 (8)	-	160 (4)	288 (6)
Medical Surgical Nursing	-	800 (20)	-	288 (6)

Child Health Nursing	-	320(8)	-	96 (2)
Midwifery and Gynaecological Nursing	-	-	560 (14)	384 (8)
<b>Total</b>	<b>1200</b>	<b>1440</b>	<b>720</b>	<b>1152</b>

#### SCHEME OF EXAMINATION:

##### FIRST YEAR

Paper	Subjects	Total Marks	Internal Assessment	Council/ Board examination	Weightage	Duration of Examination (Hrs.)
I.	Bio Sciences	100	25	75		3
	- Anatomy & Physiology.				65%	
	- Microbiology				35%	

Paper	Subjects	Total Marks	Internal Assessment	Council/ Board examination	Weightage	Duration of Examination (Hrs.)
II.	Behavioral Sciences - Psychology - Sociology	100	25	75	65% 35%	3
III.	Foundation of Nursing - Fundamental of Nursing - First aid	100	25	75		3
IV.	Community Health Nursing - CHN-I - Environmental Hygiene - Health education & Communication Skills - Nutrition	100	25	75	50% 10% 25% 15%	3
	Practical – I Fundamental of Nursing	<b>100</b>	<b>50</b>	<b>50</b>		-

## SECOND YEAR

Paper	Subjects	Total Marks	Internal Assessment	Council/ Board examination	Duration of Examination (Hrs.)
I.	Medical Surgical Nursing-I	100	25	75	3
II.	Medical Surgical Nursing –II	100	25	75	3
III.	Mental Health Nursing	100	25	75	3
IV.	Child Health Nursing	100	25	75	3
	Practical – I Medical Surgical Nursing	100	50	50	-
	Practical-II Child Health Nursing	100	50	50	
	Practical-III* Mental Health Nursing	100	50	50*	

**Note:** \* (only school examination, no council/board exam)  
\*Practical examination for psychiatric nursing is to be conducted at the place of clinical experience at the end of clinical instruction by school, itself and marks shall be sent to the council/board.

### THIRD YEAR Part-I\*

Paper	Subjects	Total Marks	Internal Assessment	Council/ Board examination	Duration of Examination (Hrs.)
I.	Midwifery & Gynecological Nursing	100	25	75	3
II.	Community Health Nursing-II	100	25	75	3
	Practical I Midwifery	100	50	50	
	Practical – II Community Health Nursing	100	50	50	

\*Examination for Part-I will be conducted at the end of Third Year

### THIRD YEAR Part-II (School Examination)

Paper	Subjects	Total Marks	Term Assessment	School Exam	Duration of Examination (Hrs.)
I.	Nursing Education and Introduction to Research and statistics	100	50	50	3
II.	Professional Trends & Adjustment, Nursing administration and Ward Management	100	50	50	3

### Examination guidelines

1. Shall have one regular examination followed by supplementary examination in a year.
2. If a candidate fail they can be permitted to next year
3. A candidate can take any number of attempts with a condition that maximum period allowed is 6 years. However all previous papers need to be cleared before appearing in the final examination
4. No institution shall submit student average internal marks more than 75% i.e., if 40 students are admitted in a course than the average score of the 40 students shall not exceed 75%.  
Example of 5 students: A=25, B=20, C=22, D=21, E=24  
Average score=89.6%  
This will not be accepted by the State Nursing Registration Council
5. Minimum pass marks should be 50% in each of the Theory and practical paper separately.
6. Minimum pass marks shall be 40% for English only.
7. Theory and Practical exams for Introduction to Computer to be conducted as School exam and marks to be send to the SNRC/ Board for inclusion in the mark sheet.
8. A candidate has to pass in theory and practical exam separately in each of the paper.
9. If a candidate fails in either theory or practical paper he/she has to re-appear for both the papers (Theory and Practical)

10. Maximum number of candidates for practical examination should not exceed 20 per days.
11. All practical examination must be held in the respective clinical areas.
12. One internal and one external examiners should jointly conduct practical examination for each students.

### **Eligibility for Admission to Examination**

A candidate shall be eligible for the admission to the state Council / Board examination if the Principle of the school certificate that:

- (a) She / he has completed not less than eleven months of the course
- (b) A candidate must have minimum of 80% attendance (irrespective of the kind of absence) in theory and practical in each subject for appearing for examination.

***The diploma shall not be awarded to the student till she / he has completed the clinical / field requirements.***

- (c) A Candidate must secure 50% marks in internal assessment separately in each theory and practical.
- (d) The record of practical experience is complete.

(The Principal shall send to the Council / board the internal assessment for each subject, i.e. both theory and practical (S) before the start of the examination along with the examination form).

### **GRADING OF EXAMINATION**

Examination shall be graded on aggregate marks of the entire three years of the training programme, as follows:

Distinction	-	80% and above
First Division	-	70% to 79%
Second Division	-	60% to 69%
Pass	-	50% to 59%

### **THEORY EXAMINATION**

1. Nursing teacher with minimum five years of teaching experience (recent) in a particular subject may be appointed as paper setters and examiners for that particular subject only.
2. Question paper should have a combination of essay, short answer and objective type question as detailed in the content
3. All units of a subject and sub-subject should be given due weightage in accordance with the instructional hours prescribed.

### **PRACTICAL EXAMINATION**

1. Practical examination is to be conducted in the respective clinical area.
2. Nursing teacher with minimum of five years of teaching/clinical teaching experience in a particular subject/clinical area may be appointed as practical examiner.

## MAINTAINENCE OF PRACTICAL RECORD

The student shall be required to maintain the Practical record book and report of observation visits and diary for assessment must also be used. Marks shall be allotted for each of the following:

- a) Case study
- b) Case presentation
- c) Nursing care plan
- d) Maintenance of record books (Procedure Book and Midwifery Record book).
- e) Daily diary.
- f) Area wise clinical assessment is to be carried out. Minimum two assessments are required in each clinical area.

Regular record of theory and practical is to be maintained. Task oriented assessment is to be undertaken. Assessment shall be maintained by teacher for each student each month. This can be checked by the Council/ Board. Principal to sign all the records of examination. It should be displayed on the notice board for the information of the students.

Each student is required to maintain the record of following assignment in clinical areas in each year:

### First Year

- |                          |   |  |
|--------------------------|---|--|
| a) Nursing care plan     | - | 4 in medical / surgical wards.             |
| b) Daily Diary           | - | 1 each in urban and rural community field. |
| c) Health – Talk         | - | 1 each in Urban and rural community field. |
| Family Study including   | - | 1 each in Urban and rural community field. |
| Health assessment of an  | - | 1 each in Urban and rural community field. |
| Individual in the family |   |  |
| Community profile        | - | 1 each in Urban and rural community field. |

### Second Year

#### (a) Medical Ward

- |                   |   |   |
|-------------------|---|---|
| Nursing Care Plan | - | 2 |
| Case Study        | - | 1 |
| Case Presentation | - | 1 |
| Drug Study        | - | 1 |

#### (b) Surgical Ward

- |                   |   |   |
|-------------------|---|---|
| Nursing Care Plan | - | 2 |
|-------------------|---|---|

Case Study	-	1
Case Presentation	-	1
Drug Study	-	1

**(c) Psychiatry Ward**

Nursing Care Plan	-	1
Case Study	-	1
Case Presentation	-	1
Drug Study	-	1
Process Recording	-	2
Mental Status examination	-	4

**(d) Pediatric Ward**

Nursing Care Plan	-	2
Case Study	-	1
Case Presentation	-	1
Drug Study	-	1
Observation Report (New born)	-	2

**Third Year**

**(a) Midwifery and Gynaecological ward.**

Nursing Care Plan	-	2+1
Case Study	-	1+1
Case Presentation	-	1+1
Drug Study	-	1+1

**(b) Daily Diary** Urban & Rural Community field

Health Talk	-	2 each
Family Health Nursing care Plan	-	2 each
Group Project	-	1 each

In addition to above, each student shall maintain a procedure book and midwifery case book signed by concerned / supervisor and Principle which is to be presented to examiner each year.

The above assignments are to be evaluated by concerned teachers for the purpose of internal assessment and shall be presented to the external examiner in a compiled form and it should be duly signed by her and should be stamped as cancelled after practical examination.

# BIO-SCIENCE

**Placement- FIRST YEAR**

**Time: Theory- 120 hours**

Anatomy and Physiology-90 hours

Microbiology- 30 hours

## ANATOMY AND PHYSIOLOGY

### Course Description

This course is designed to help students gain knowledge of the structure and function of the human body and recognize any deviation from normal health in order to render effective nursing services.

### General Objective

Upon completion of the course, the student shall be able to:

1. Describe in general the structure and functions of the human body.
2. Describe in detail the structure and functions of the different organs and systems in the human body.
3. Apply the anatomical and physiological principles in the practice of nursing.

Total Hours – 90

Unit No.	Learning Objectives	Content	Hr.	Teaching learning activities	Assessment methods
I	Define and spell various anatomical terms.	<b>Introduction to anatomical terms organization of the human body</b> a) Anatomical terms b) Systems and cavities of the human body	4	Lecture cum Discussions.  Explain using charts  Record book	Short answer questions  Objective type
II.	Describe different organs of the body, systemic function and their inter-relationship.	<b>Introduction to the detailed structure of the body</b> a) The cell: Structure, reproduction and function b) Tissues including membranes and glands : types, structure and functions c) Body cavities and their contents	6	Lecture cum Discussions.  Explain using microscopic slides, Skeleton and torso	Short answer questions  Objective type
III	Describe the composition of blood and its functions.	<b>Blood</b> a) Composition and formation of blood b) Functions of blood c) Blood clotting, blood grouping and cross matching d) Blood products and their use.	6	Lecture cum Discussions.  Explain using microscopic slides	Short answer questions  Objective type Essay type

Unit No.	Learning Objectives	Content	Hr.	Teaching learning activities	Assessment methods
				Demonstration of blood grouping and cross-matching, Hb estimation	
IV.	Describe the structure and functions of heart and blood vessels	<b>The Circulatory System</b> a) Heart : Structure, functions including conduction system and cardiac cycle b) Blood vessels : Types, Structure and position c) Circulation of blood d) Blood pressure and pulse	6	Lecture cum discussions.  Explain using charts, models and specimen	Short answer questions  Objective type Essay type
V.	Describe structure and functions of lymphatic system	<b>The Lymphatic system</b> - Structure and function of lymph vessels, Lymph nodes and lymph circulation, lymphatic tissue - spleen and thymus	6	Lecture cum discussions.  Explain using charts and models	Short answer  Objective type Essay type
VI.	Describe the structure and functions of respiratory system	<b>The Respiratory system</b> a) The structure and functions of respiratory organs b) The physiology of respiration c) Characteristics of normal respiration and deviation.	6	Lecture cum discussions.  Explain using charts and models, specimens  Demonstration of spirometry	Short answer  Objective type Essay type
VII.	Describe the structure and function of digestive system	<b>The Digestive system</b> a) Structure and functions of the alimentary tract and its accessory organs. b) The process of digestion, absorption and metabolism of food constituents.	6	Lecture cum discussions.  Explain using charts, models and videos	Short answer  Objective type Essay type
VIII.	Describe the structure and functions of organs of Excretory system.	<b>The Excretory system</b> a) Structure and functions of the kidney, ureters, urinary bladder, and urethra b) Formation and composition of urine. c) Fluid and electrolyte balance d) Structure and functions of the skin. e) Regulation of the body temperature.	6	Lecture cum discussions.  Explain using charts, slides models and videos	Short answer  Objective type Essay type

Unit No.	Learning Objectives	Content	Hr.	Teaching learning activities	Assessment methods
IX.	Describe the structure and functions of endocrine glands.	<b>The Endocrine system</b> - The structure and functions of the pituitary, thyroid, parathyroid and adrenal glands, pancreas (islets of Langerhans), ovaries and testes	6	Lecture cum discussions. Explain using charts and models	Short answer Objective type Essay type
X.	Describe the structure and functions of male and female reproductive system and accessory organs	<b>The Reproductive system</b> a) Structure and functions of the female reproductive system b) Process of menstrual cycle, reproduction and menopause c) Structure and functions of breasts d) Structure and functions of the male reproductive system e) Reproductive health	8	Lecture cum discussions. Explain using charts, videos, models and specimens	Short answer Objective type Essay type
XI.	Describe the structure and functions of Nervous system.	<b>The nervous system</b> a) Types of nerves- structure and functions b) Brain and cranial nerves. c) Spinal cord and motor and sensory pathways of the spinal cord, autonomic nervous system.	10	Lecture cum discussions. Explain using charts and models	Short answer Objective type Essay type
XII.	Describe the structure and function of sensory organs	<b>The sense organs</b> a) Skin, eye, ear, nose and tongue b) Physiology of vision, hearing, smell, touch, taste and equilibrium.	6	Lecture cum discussions. Explain using charts, videos and models	Short answer Objective type Essay type
XIII.	Describe the structure and functions of skeletal system.	<b>The Skeleton</b> a) Formation and growth of bones b) Tendons, ligaments and cartilages c) Classification of bones, joints d) Joint movement e) Axial and appendicular skeleton	8	Lecture cum discussions. Explain using charts, models and skeleton	Short answer Objective type Essay type
XIV	Describe structure and functions of Muscular system.	<b>The Muscular System</b> a) Type, structure and functions of muscle b) Origin, Insertion, and action of muscles	6	Lecture cum discussions. Explain using charts, slides and models	Short answer Objective type Essay type

## MICROBIOLOGY

### Course Description

This course is designed to help students gain knowledge and understanding of the characteristics and activities of micro-organisms, how they react under different conditions and how they cause different disorders and diseases. Knowledge of these principles will enable student to understand and adopt practices associated with preventive and promotive health care.

### General Objectives

Upon completion of the course, the students shall be able to:

1. Describe the classifications and characteristics of micro-organisms
2. List the common disease producing micro-organisms
3. Explain the activities of micro-organism in relation to the environment and the human body.
4. Enumerate the basic principles of control and destruction of micro-organisms.
5. Apply the principles of microbiology in nursing practice.

**Total Hours – 30**

Unit. No.	Learning Objectives	Content	Hr.	Teaching learning activities	Assessment methods
I	Describe evolution of microbiology and its relevance in nursing.	<b>Introduction</b> a) History of bacteriology and microbiology. b) Scope of microbiology in Nursing	3	Lecture cum discussions.	Objective type Short answers
II	Classify the different types of micro organism. Describe the normal flora and the common diseases caused by pathogens Explain the methods to study microbes	<b>Micro Organisms</b> a) Classification, characteristics, (Structure, size, method and rate of reproduction) b) Normal flora of the body. c) Pathogenesis & common diseases. d) Methods for study of microbes, culture & isolation of microbes.	8	Lecture cum discussions.  Explain using slides, films, videos, exhibits, models Staining and fixation of slides.	Short answer Objective type Essay type
III	Describe the sources of infection and growth of microbes. Explain the transmission of infection and the principles in collecting specimens	<b>Infection and its transmission</b> a) Sources and types of infection, nosocomial infection. b) Factors affecting growth of microbes. c) Cycle of transmission of infection portals of entry, exit, modes of transfer. d) Reaction of body to infection, mechanism of resistance. e) Collection of specimens.	4	Lecture  Demonstrations Specimens  Explain using charts	Short answer Objective type Essay type

IV	Describe various types of immunity, hypersensitivity autoimmunity and immunizing agents	<b>Immunity</b> a) Types of immunity – innate and acquired. b) Immunization schedule. Immunoprophylaxis (vaccines, sera etc.) c) Hypersensitivity and autoimmunity. d) Principles and uses of serological tests	5	Lecture cum discussions.  Demonstration Exhibits	Short answer  Objective type  Essay type
V	Describe the various methods of control and destruction of microbes	<b>Control and destruction of Microbes</b> a) Principles and methods of microbial control -Sterilization -Disinfection -Chemotherapy and antibiotics -Pasteurization b) Medical and surgical asepsis c) Bio-safety and waste management	5	Lecture,  Demonstration Videos Visit to the CSSD	Short answer  Objective type  Essay type
VI.	Demonstrate skill in handling & care of microscopes Identify common microbes under the microscope	<b>Practical Microbiology</b> a) Microscope – Parts, uses, handling and care of microscope b) Observation of staining procedure, preparation and examination of slides and smears c) Identification of common microbes under the microscope for morphology of different microbes.	5	Lecture,  Demonstrations Specimens Slides	

## BEHAVIOURAL SCIENCES

**Placement- FISRT YEAR**

**Time- 60 Hours**

Psychology- 40 hours

Sociology- 20 hours

### PSYCHOLOGY

#### Course Description

This course is designed to help students understand the dynamics of human behavior and concept of mental health. This shall enable them to develop positive attitude and good inter – personal relationships in the practice of nursing in all health care settings.

#### General Objectives

Upon completion of the course, the students shall be able to:

1. Describe the concept of mental health and psychology.
2. Explain the dynamics of human behavior, personality and learning.
3. Discuss the role of adjustment mechanisms and emotions in health and illness.
4. Demonstrate skills in the application of principle of psychology in nursing practice in all kind of health care settings.

**Total Hours – 40**

Unit. No.	Learning Objectives	Content	Hr.	Teaching learning activities	Assessment methods
I	State the concept, scope and importance of psychology.	<b>Introduction</b> a) Definition, nature and scope of psychology b) Importance of psychology for Nurses	2	Lecture cum discussion.	Short answer  Objective type
II.	Describe the structure of the mind.	<b>Structure of the mind</b> a) Conscious, pre-conscious b) Id, ego and super ego	2	Lecture cum discussions.	Short answer  Objective type
III.	Illustrate the dynamics of human behavior. Describe the concept of mental health	<b>Psychology of Human Behavior</b> a) Basic human needs, dynamics of behavior, motivation drives b) Body mind relationship, mental health, characteristics of mentally healthy person, emotional control, psychological problems of patients and relatives.	12	Lecture cum discussions.  Role play	Short answer  Objective type  Essay type

Unit. No.	Learning Objectives	Content	Hr.	Teaching learning activities	Assessment methods
		c) Stress and conflicts, natural sources and types of stress and conflicts, dealing with stress and conflict, frustration – sources and overcoming frustration d) Mental mechanism their uses and importance e) Attitudes - meaning, development changes in attitude, effects of attitudes on behavior, importance of positive attitude for the nurse. f) Habits-meaning and formation. g) Breaking of bad habits, importance of good habit formation for the nurse.			
IV	Describe and apply the process of learning, thinking, reasoning, observation and perception	<b>Learning</b> a) Nature, types and laws of learning, b) Factors affecting learning, memory and forgetting. <b>Thinking and Reasoning</b> - Nature and types of thinking, reasoning, problem solving, importance of creative thinking for nurse. <b>Observation and Perception</b> - Attention, perception, laws of perception, factors affecting attention and perception, and errors in perception	13	Lecture cum discussions.  Roleplay	Short answer  Objective type  Essay type
V.	Discuss the concept and development of personality.	<b>Personality</b> a) Meaning, nature and development, types of personality b) Assessment of personality importance of knowledge of personality for the nurse. c) Characteristics of various age groups – child adolescent, adult and aged d) Will and character.	6	Lecture cum discussions.  Role play  Psychometric assessment	Short answer  Objective type  Essay type
VI.	Discuss the nature and measurement of intelligence.	<b>Intelligence</b> a) Definition, Meaning, individual differences in intelligence b) Mental ability, nature of intelligence and development c) Assessment of intelligence	5	Lecture cum discussions.  Demonstration  Role play  IQ testing	Short answer  Objective type  Essay type

## SOCIOLOGY

### Course Description

This course is designed to help student gain an understanding of sociology in the context of its relevance to nursing practice.

### General Objectives

Upon completion of the course, the students shall be able to:

1. Describe the concept of the family as a social unit and the status of the individual in the family.
2. Explain the dynamics of society and identify common social problems.
3. Demonstrate ability to understand the socio – cultural and economic aspects of the community in the light of their effects on health and illness.
4. Utilize the knowledge and understanding of sociology in nursing practice.

**Total Hours - 20**

Unit No.	Learning Objectives	Content	Hr.	Teaching learning activities	Method of assessment
I	Describe the nature, scope & content of sociology and its importance in nursing	<b>Introduction</b> a) Definition and scope of sociology b) Its relationship with other social sciences c) Uses of sociology for nurses.	2	Lecture cum discussions	Short answer  Objective type
II	Describe the influence of the environment on individual development and the rights and responsibilities of the individual in the society	<b>Individual</b> a) Review of human growth and development b) The socialization process c) Effect of environment on human growth and development d) Rights and responsibilities of the individual in a democratic society.	2	Lecture cum discussions	Short answer  Objective type  Essay type
III	Describe the concept of family as a social unit	<b>The Family</b> a) Definition, characteristics and types of family. b) Family cycle and basic needs of family c) Importance of interdependence of family members. d) Important functions of family and their problems. e) Types of Marriage, medical and sociology aspects of marriage.	4	Lecture cum discussions	Short answer  Objective type  Essay type

Unit No.	Learning Objectives	Content	Hr.	Teaching learning activities	Method of assessment
IV	Describe about social groups, social change, control, stratification and social problems	<b>Society</b> a) Definition and meaning. b) Social groups - Types, Structure, intergroup relationship group cycle, group behavior and group morale. c) Social change -Meaning, factors affecting and effect on society and institution leading to social problems. d) Social control e) Social stratification f) Social problems-Prostitution, crime divorce, dowry system, juvenile delinquency, drug addiction alcoholism, handicapped, over population and slum g) Social agencies and remedial measures	8	Lecture cum discussions  Visits to social institutions	Short answer  Objective type  Essay type
V	Describe the culture and characteristics of community	<b>The Community</b> a) Community – Definition and types – Rural and urban b) Culture and characteristics	4	Lecture cum discussions	Short answer  Objective type  Essay type

## NURSING FOUNDATIONS

**Placement- FIRST YEAR**

**Time- 210 hours**

Fundamentals of Nursing- 190 hours

First- Aid- 20 hours

### FUNDAMENTALS OF NURSINGS

#### Course Description

This course is designed to help students develop an ability to meet the basic health need of the patients with regard to nursing care and develop skill in the competencies required for rendering effective patient care.

#### General Objectives

Upon completion of the course, the students shall be able to:

- 1 Describe the physical, mental and social adjustment required of a sick individual and his family.
- 2 Carry out basic nursing techniques and care with the application of sound scientific principle.
- 3 Explain the concept of comprehensive nursing care.
- 4 Develop skills in assessment, planning, implementation and evaluation of the nursing care rendered to the patients.
- 5 Communicate effectively and establish good interpersonal relationship with the patients, their relatives and other health team members.
- 6 Demonstrate skills in observation, recording and reporting.
- 7 Recognize and utilize opportunities for planning and implementing need based health teaching programme (s) for individuals, groups, families and communities.

**Total Hours - 190**

Spray: nose and throat</li> </ul> </li> <li>f) Inhalations: nasal, oral, endotracheal, tracheal (steam, oxygen and medications) – purposes, types, equipment, procedure and special considerations.</li> <li>g) Recording and reporting of medications administered.</li> </ul>			

## FIRST AID

### Course Description

This course is designed to help students develop and understanding of community emergencies and be able to render first aid services as and when need arises.

### General Objectives

Upon completion of this course, the students shall be able to:

1. Describe the rules of first aid.
2. Demonstrate skills in rendering first aid in case of emergencies.

**Total Hours - 20**

Unit	Learning Objectives	Content	Hr.	Teaching learning activities	Assessment methods
I	Describe the importance and principle of first aid	<b>Introduction</b> a) Definition, Aims and Importance of first aid b) Rules/ General principles of First Aid c) Concept of emergency	2	Lecture cum discussions	Short answer Objective type
II	Demonstrate skill in first aid techniques	<b>Procedures and Techniques in First Aid</b> a) Preparation of First Aid kit. b) Dressing, bandaging and splinting(spiral, reverse spiral, figure of 8 spica, shoulder, hip, ankle, thumb, finger, stump, single and double eye, single and double ear, breast, jaw, capelin), triangle bandage uses, abdominal binder and bandage, breast binder, T and many tail bandage, knots reef, clove. c) Transportation of the injured d) CPR : Mouth to mouth, Sylvester, Schafer, External cardiac massage	8	Lecture cum discussions  Demonstration Videos  Simulation exercises.	Short answer Objective type Return demonstration
III	Describe first aid in common emergencies	<b>First Aid in emergencies</b> a) Asphyxia, drowning, shock b) Wounds and Bleeding c) Injuries to the Bones, Joints and Muscle - fractures, sprains, strains, hanging, falls	6	Lecture cum discussions.  Videos  Demonstration	Short answer Objective type Return demonstration

Unit	Learning Objectives	Content	Hr.	Teaching learning activities	Assessment methods
		d) Burns and scalds e) Poisoning – ingestion, inhalation, bites and stings f) Foreign body in eye, ear, nose and throat.			
IV	List various community emergencies and community resources.	<b>Community Emergencies &amp; Community Resources</b> a) Fire, explosion, floods, earth-quakes, famines etc b) Role of nurses in disaster management c) Rehabilitation d) Community Resources - Police, Ambulance services - Voluntary agencies-local, state national and international	4	Lecture cum discussions. Videos Mock drill Simulation exercise Videos Field visit to voluntary agencies.	Short answer Objective type Essay type

## NURSING FOUNDATIONS- PRACTICAL

**Placement: First Year**

**Time: Practical – 880 hours**

Lab - 200 hours

Clinical – 680 hours

**Course Description:** This course is designed to help the students to acquire knowledge, attitude and skills in techniques of nursing and practice them in clinical settings

The nurse on completion of this course will be able to:

- Demonstrate appropriate attitudes and skills in providing comprehensive nursing care to patients based on nursing process.
  - Assess the nursing needs of the clients by collecting complete data, making relevant observation and analyze the data collected.
  - Plan for appropriate nursing care by prioritizing the needs and executing competent nursing actions.
  - Implement effective nursing care by integrating scientific principles for maintaining health optimum
  - Promote the health of the individual and the community by giving appropriate health teaching.
  - Evaluate the patients response to nursing care provided.
  - Apply the theoretical knowledge to the appropriate clinical nursing practice.
  - Demonstrate skill in the use of problem solving methods in nursing practice.
  - Contribute for promotion of health prevention of illness & restoration of health of people by working with other health team members.
  - Gain knowledge of health resources in the community and the country.
  - Demonstrate leadership skills in working with health team, community and others in the provision of health care.
  - Recognize the need for continuing education for professional development.
  - Demonstrate use of ethical values in their personal and professional life.
  - Assist in research activities.

## COMMUNITY HEALTH NURSING – I

### Course Description

This course is designed to help students gain an understanding of the concept of community health in order to introduce them to the wider horizons of rendering nursing services in a community set – up, both in urban and rural areas.

### General Objectives

Upon completion of this course, the students shall be able to:

- 1 Describe the concept of health, community health and community health nursing.
- 2 State the principles of epidemiology and epidemiological methods in community health nursing practice.
- 3 Explain the various services provided to the community and role of the nurse.
- 4 Demonstrate skills to practice effective nursing care of the individuals and families in the clinics as well as in their homes, using scientific principles.

**Total Hours – 80**

Unit No.	Learning Objectives	Content	Hr	Teaching Learning activities	Method of Assessment
I	Describe the concept of health and disease and community health	<b>Introduction to Community Health</b> a) Definitions: Community, Community health, community health nursing b) Concept of Health and disease, dimensions and indicators of health, Health determinants c) History & development of Community Health in India& its present concept. d) Primary health care, Millennium Development Goals e) Promotion and maintenance of Health	10	Lecture cum discussions.	Short Answers

Unit No.	Learning Objectives	Content	Hr	Teaching Learning activities	Method of Assessment
II	Explain various aspects of Community Health Nursing. Demonstrate skills in applying nursing process in Community Health Nursing settings	<b>Community Health Nursing</b> a) Philosophy, goals, objectives & principles, concept and importance of Community Health Nursing, b) Qualities and functions of Community Health Nurse c) Steps of nursing process; community identification, population composition, health and allied resources, community assessment, planning & conducting community nursing care services.	14	Lecture cum discussions.	Short answers Essay type
III	Demonstrate skill in assessing the health status and identify deviations from normal parameters in different age groups.	<b>Health Assessment</b> a) Characteristics of a healthy individual b) Health assessment of infant, preschool, school going, adolescent, adult, antenatal woman, postnatal woman, and elderly.	10	Lecture cum discussions. Demonstration Role Play Videos	Short answers Objective type Essay type Return demonstration
IV	Describe the principles of epidemiology and epidemiological methods in community health nursing practice.	<b>Principles of Epidemiology and Epidemiological methods</b> a) Definition and aims of epidemiology, communicable and non-communicable diseases. b) Basic tools of measurement in epidemiology c) Uses of epidemiology d) Disease cycle e) Spectrum of disease f) Levels of prevention of disease. g) Disease transmission – direct and indirect. h) Immunizing agents, immunization and national immunization schedule. i) Control of infectious diseases. j) Disinfection.	10	Lecture cum discussions. Non-communicable disease module of government of India. Field visit	Short answers Objective type Essay type
V	Demonstrate skill in providing comprehensive nursing care to the family.	<b>Family Health Nursing Care</b> a) Family as a unit of health b) Concept, goals, objectives c) Family health care services d) Family health care plan and nursing process.	12	Lecture cum discussions. Role play Family visit	Short answers Essay type

Unit No.	Learning Objectives	Content	Hr	Teaching Learning activities	Method of Assessment
		e) Family health services – Maternal, child care and family welfare services. f) Roles and function of a community health nurse in family health service. g) Family health records.			
VI.	Describe the principles and techniques of family health care services at home and in clinics.	<b>Family Health Care Settings Home Visit:</b> a) Purposes, Principles b) Planning and evaluation c) Bag technique d) Clinic: Purposes, type of clinics and their functions e) Function of Health personnel in clinics	10	Lecture cum discussions.  Demonstration  Visits – Home, health center	Short answer  Return demonstration
VII	Describe the referral system and community resources for referral	<b>Referral System</b> a) Levels of health care and health care settings. b) Referral services available c) Steps in referral. d) Role of a nurse in referral	6	Lecture cum discussions.  Mock drill	Short answer  Objective type
VIII	List the records and reports used in community health nursing practice	<b>Records and reports</b> a) Types and uses b) Essential requirements of records and reports c) Preparation & Maintenance	3	Lecture cum discussions.  Exhibit the records.	Short answer  Objective type
IX.	Explain the management of minor ailments.	<b>Minor Ailments</b> a) Principles of management b) Management as per standing instructions/orders.	5	Lecture cum discussions.	Short answer  Objective type

## Community Health Nursing I- Practical

**Placement: First Year**

**Time: Practical – 320 hours (8 weeks)**

Areas	Duration	Objectives	Skills	Assignments	Assessment methods
Community health Nursing - urban / rural	8 weeks	<ul style="list-style-type: none"> <li>a) Organize home visit</li> <li>b) Prepare bagand demonstrate bag technique.</li> <li>c) Build up and maintain rapport with family.</li> <li>d) Identify needs of community</li> <li>e) Practice procedure</li> <li>f) Make referrals.</li> <li>g) Plan and conduct health education on identified health needs.</li> <li>h) Set up clinics with help of staff.</li> <li>i) Maintain records and reports</li> <li>j) Collect and record vital health statistics.</li> <li>k) Learn about various organizations of community health importance.</li> <li>l) Health Assessment family</li> <li>m) Identify the health needs of various age groups.</li> <li>n) Assess the environment</li> <li>o) Maintain family folders.</li> <li>p) Assessment nutritional needs</li> <li>q) Demonstrate different method of preparing food according to the nutritional need of family.</li> </ul>	<ul style="list-style-type: none"> <li>• Conducting Home visits.</li> <li>• Nutritional assessment of individuals.</li> <li>• Provide care at home as per Standing Orders / protocol.</li> <li>• Conduct health Education.</li> <li>• Set up of different Clinics.</li> <li>• Maintain Records &amp; Reports.</li> <li>• Practice family health nursing.</li> <li>• Demonstrate different methods of preparation of Meals.</li> </ul>	<ul style="list-style-type: none"> <li>• Daily Diary</li> <li>• Health talk -2</li> <li>• Family care plan based on family study -2.</li> <li>• Health assessment of an individual -2</li> <li>• Community Profile – 2</li> <li>• Report of visit to water purification plant, sewage plant, milk dairy, panchayat.</li> </ul>	<ul style="list-style-type: none"> <li>• Assess clinical performance with rating scale.</li> <li>• Evaluation of daily diary, health talk, family care plan, health assessment, community profile, observation report.</li> </ul>

## ENVIRONMENTAL HYGIENE

### Course Description

This course is designed to help students acquire the concept of health, understanding of the principles of environmental health and its relation to nursing in health and disease.

### General Objectives

Upon completion of this course, the students shall be able to:

- 1 Describe the concept and principles of environmental health.
- 2 Demonstrate skills to apply the principles of environmental hygiene in caring for self and others.
- 3 Describe the environmental health hazards, related health problems and the services available to meet them.

**Total Hours – 30**

Unit.	Learning Objectives	Content Unit wise	Hr	Teaching learning activities	Method of assessment
I	Explain the importance of healthy environment and its relation to health and disease.	<b>Introduction</b> a) Components of environment b) Importance of healthy environment	2	Lecture cum discussions.	Short answer
II	Describe the environmental factors contributing to health and illness.	<b>Environmental Factors Contributing to Health</b> a) Water : - Sources and characteristics of safe and wholesome water - Uses of water. - Rain water harvesting - Water pollution – natural and acquired impurities - Water borne diseases - Water purification-small and large scale b) Air : - Composition of air - Airborne diseases - Air pollution and its effect on health - Control of air pollution and use of safety measures.	22	Lecture cum discussions  Demonstration  Exhibits  Visit to water Purification plant, sewage treatment plant	Short answers  Objective type  Essay type

Unit.	Learning Objectives	Content Unit wise	Hr	Teaching learning activities	Method of assessment
		c) Waste : <ul style="list-style-type: none"> <li>- Refuse – garbage, excreta and sewage</li> <li>- Health hazards</li> <li>- Waste management: collection, transportation and disposal.</li> </ul> d) Housing: <ul style="list-style-type: none"> <li>- Location</li> <li>- Type</li> <li>- Characteristics of good housing</li> <li>- Basic amenities</li> <li>- Town planning</li> </ul> e) Ventilation: <ul style="list-style-type: none"> <li>- Types and standards of ventilation</li> </ul> f) Lighting: <ul style="list-style-type: none"> <li>- Requirements of good lighting</li> <li>- Natural and artificial lighting</li> <li>- Use of solar energy</li> </ul> g) Noise <ul style="list-style-type: none"> <li>- Sources of noise</li> <li>- Community noise levels</li> <li>- Effects of noise pollution</li> <li>- Noise Control measures</li> </ul> h) Arthropods: <ul style="list-style-type: none"> <li>- Mosquitoes, housefly, sand fly, human louse, rat fleas, rodents, ticks etc.</li> <li>- Control measures</li> </ul>			
III.	Describe the community organization to promote environmental health.	<b>Community organizations to promote environmental health</b> <p>a) Levels and types of agencies:</p> <ul style="list-style-type: none"> <li>- National, state, local</li> <li>- Government, voluntary and social agencies.</li> </ul> <p>b) Legislations and acts regulating the environmental hygiene.</p>	6	Lecture cum discussions.	Short answer Objective type.

## HEALTH EDUCATION AND COMMUNICATION SKILLS

### Course Description

This course is designed to help students to

1. Acquire the concept of health education and develop an ability to select and/or prepare appropriate audio-visual aids and use them effectively to communicate with the individuals and community
2. Understand the principles of communication and counseling, and its application in nursing practice.

### General Objectives

Upon completion of this course, the students shall be able to:

- 1 Describe the concept of health education, communication skills including soft skills, audio – visual aids and health education agencies.
- 2 Identify and utilize opportunities for health education.
- 3 Describe the application of information technology in preparation and use of various health teaching aids.
- 4 Develop effective communication and counseling skills.

**Total Hours – 40**

Unit.	Learning Objectives	Content	Hr.	Method of Teaching	Assessment methods
I	Describe the concept and different aspects of communication	<b>Communication Skills</b> a) Definition, process, purposes, principles, types and importance of communication b) Barriers in communication c) Establishment of successful communication. d) Observing and listening skills.	8	Lecture cum discussions.  Demonstration  Role play	Short answers  Objective type  Return demonstration
II	Describe the aims and objectives, scope, levels, approaches and principles of health education	<b>Health Education</b> a) Concept, definition, aims and objectives of health education b) Principles of health education c) Process of change/modification of health behavior d) Levels and approaches of health education e) Methods of health education f) Scope and opportunities for health education in hospital and community g) Nurse's role in health education.	6	Lecture cum discussions.	Short answers  Objective type

Unit.	Learning Objectives	Content	Hr.	Method of Teaching	Assessment methods
III	Demonstrate the skills of counseling.	<b>Counseling</b> a) Definition, purpose, principles, scope and types b) Counseling process: steps and techniques c) Qualities of a good counselor d) Difference between health education and counseling e) Role of nurse in counseling	8	Lecture cum discussion  Role play	Short answer  Essay type.
IV	Describe the types of AV aids. Demonstrate skill in preparing and using different kinds of audio – visual aids	<b>Methods and Media of Health Education</b> a) Definition, purpose and types of audio-visual aids and media b) Selection, preparation and use of audio-visual aids : graphic aids, printed aids, three dimensional aids and projected aids c) Advantages and limitations of different media d) Preparation of health education plan	18	Lecture cum discussions  Exhibits.  Demonstration	Evaluation of prepared audio visual aids.  Written test

## NUTRITION

### Course Description

This course is designed to help students understand that nutrition is an integral component of health as nutrients play a vital role in the growth, development and maintenance of the body.

### General Objectives

Upon completion of this course, the students shall be able to:

- 1 Describe the principles of nutrition and dietetics and its relationship to the human body in health and disease.
- 2 Describe the balanced diet in promotion of health
- 3 Apply this knowledge in providing therapeutic diet in care of the sick.
- 4 Demonstrate skills in selection, preparation and preservation of food.

**Total Hours – 30**

Unit.	Learning Objectives	Content	Hr.	Teaching learning activities	Methods of assessment
I	Describe the relationship between nutrition and health	<b>Introduction</b> a) Meaning of food, nutrition, nutrients etc. b) Food Habits and customs c) Factors affecting nutrition d) Changing concepts in food and nutrition. e) Relation of Nutrition to Health	2	Lecture cum discussions.  Explain using charts	Short answer types  Objective type
II	Describe the classification of food.	<b>Classification of food</b> a) Classification by origin: - Food and animal origin - Food of plant origin b) Classification by chemical composition and sources - Carbohydrates - Proteins - Fats - Minerals - Vitamins - Water c) Classification by predominant functions - Body building food - Energy giving food - Protective food	2	Lecture cum discussions.  Real food items  Exhibits charts	Short answers  Objective type  Essay type

Unit.	Learning Objectives	Content	Hr.	Teaching learning activities	Methods of assessment
		d) Classification by nutritive value <ul style="list-style-type: none"> <li>- Cereals and millets</li> <li>- Pulses and legumes</li> <li>- Vegetables</li> <li>- Nuts and oil seeds</li> <li>- Fruits</li> <li>- Animal food</li> <li>- Fats and oils</li> <li>- Sugar and jiggery</li> <li>- Condiments and spices</li> <li>- Miscellaneous food.</li> </ul>			
III	Explain normal dietary requirements Demonstrate skill in calculating normal food requirements.	<b>Normal Dietary Requirements</b> <ol style="list-style-type: none"> <li>a) Energy: Calorie, Measurement, Body Mass Index, Basal Metabolic Rate – determination and factors affecting</li> <li>b) Balanced Diet – nutritive value of foods, calculation for different categories of people, normal food requirement calculation. Menu plan. Combination of food affecting and enhancing the nutritive value of the diet.</li> <li>c) Budgeting for food, low cost meals, food substitutes.</li> <li>d) Diseases and disorders caused by the imbalance of nutrients.</li> <li>e) Food allergy – causes, types, diet modifications in gluten, lactose and protein intolerance etc.</li> <li>f) Food intolerance - inborn errors of metabolism</li> </ol>	4	Lecture cum discussions.  Charts exhibits  Real food Practical exercise	Short answer  Objective type  Essay type
IV	Describe the principles and various methods of preparation, preservation and storage of food.	<b>Food Preparation, Preservation &amp; Storage</b> <ol style="list-style-type: none"> <li>a) Principles of cooking, methods of cooking and the effect of cooking on food and various nutrients. Safe food handling, health of food handlers.</li> </ol>	2	Lecture cum discussions.  Field visit to food processing unit.	Short answer type  Objective type

Unit.	Learning Objectives	Content	Hr.	Teaching learning activities	Methods of assessment
		b) Methods of food preservation– household and commercial, precautions. c) Food storage – cooked and raw, household and commercial, ill effects of poorly stored food. d) Food adulteration and acts related to it.		Demonstration exhibits	Evaluation of exhibit preparation.
V	Describe about therapeutic diet	<b>Therapeutic Diet</b> a) Diet modification in relation to medical and surgical condition of the individual such as Protein Energy Malnutrition (PEM), Diabetes, Cardio Vascular disease, Hepatitis, Renal, Gouts, Irritable Bowel Syndrome (IBS), Obesity, cholecystectomy, partial gastrectomy, gastrostomy, bariatric surgery and colostomy etc. b) Special diet – low sodium diet, fat free diet, diabetic diet, bland diet, high protein diet, low protein diet, low calorie diet, geriatric diet, iron rich diet, liquid diet, semi-solid diet, soft diet and high fiber diet etc c) Factors affecting diet acceptance, feeding the helpless patient. d) Health education on nutrition needs and methods in diet modification .	8	Lecture cum discussions.  Practical of planning Therapeutic diet  Demonstration Charts Exhibits	Short answers  Objective type  Essay type
VI	Describe the concept of community nutrition	<b>Community Nutrition</b> a) Nutritional problems and programs in India b) Community food supply, food hygiene and commercially prepared and grown food available locally. c) National and international food agencies – Central food training research institute (CFTRI), Food and agriculture organization	4	Lecture cum discussions.  Videos Government of India nutrition manuals.	Short answer  Objective type

Unit.	Learning Objectives	Content	Hr.	Teaching learning activities	Methods of assessment
		(FAO), National Institute of Nutrition (NIN), Food Safety and Standards Authority of India (FSSAI), CARE (Cooperative for Assistance and Relief Everywhere), National Institute of Public Cooperation and Child Development (NIPCCD) etc.		Visit to the local food preparation / processing agency.	
VII	Demonstrate skill in preparation of common food items.	<b>Preparation of diet / practical</b> a) Beverages: hot and cold, juice, shakes, soups, lassi, barley water b) Egg preparation: egg flip, scramble, omlet, poached egg c) Light diet: porridges, gruel, khichari, dahlia, kanji, boiled vegetables, salads, custards. d) Low cost high nutrition diets - chikki, multigrain roti	8	Lecture cum discussions  Cookery practical	Practical evaluation

# ENGLISH

**Placement- First Year**

**Time- 30 hours**

## Course Description

This course is designed to help students develop an ability to comprehend spoken and written English, so as to communicate effectively.

## General Objectives

Upon completion of this course, the students shall be able to:

- 1 Read and write correct English.
- 2 Communicate effectively in English.

**Total Hours-30**

Unit	Learning Objective	Content	Hr.	Method of Teaching	Assessment Method
I.	Speak and write correct grammatical English	<b>Grammar</b> a) Review of basic grammar b) Building Vocabulary	6	Discussion, written and oral exercises.	Objective type Paraphrasing
II	Develop ability to read , understand and write in English	<b>Composition</b> a) Sentence construction and usage. b) Reading comprehension. c) Written composition : paragraphs & essays, precise writing, story writing & comprehension, letter writing, nurses notes and reports, anecdotal records, diary writing	14	Discussion Written and oral exercises.	Dictation Exercise  Objective type Translation  Report evaluation  Essay type
III	Demonstrate conversation skills.	<b>Spoken English</b> a) Conversation – face to face and telephonic b) Oral report c) Discussion, debate d) Public speaking skills.	10	Discussion, written and oral exercises.	Extempore  Debates  Discussion

# COMPUTER EDUCATION

## Placement- First Year Time- 15 hours Course Description:-

This course is designed to help students gain a basic understanding of uses of computers and its application in nursing.

### General Objective:-

Upon completion of this course, the students shall able to:

1. Describe the basic disk operating system.
2. Use computer for data processing
3. Use Micro-soft office programs.
4. Use computer in patient Management System.
5. Use E-mail and internet

**Total Hours – 15**

Unit	Learning Objectives	Content	Hr.	Teaching learning activities	Assessment methods
I	Describe the structure and purpose of computers and disc operating systems	<b>Introduction to computers and Disk operating system</b> a) Definition b) Classification c) Structure and parts of computer d) Disk operating system – DOS and WINDOWS all versions. e) Purposes / uses of computer is health care delivery system	5	Lecture cum discussion  Practical	Short answers  Essay type  Practical
II	Demonstrate skill in the use of MS office	<b>MS Office</b> a) MS word b) MS excel with pictorial presentation c) MS Power point d) MS access e) MS publisher document	15	Lecture cum discussion  Demonstration  Practice session	Short answer  Objective type  Practical exam
III	Demonstrateskill in using multimedia	<b>Multimedia</b> a) Types and uses b) Data base creation, retrieval and report generation c) Computer aided teaching and testing	5	Lecture cum discussion  Demonstration	Short answer  Objective type  Practical exam
IV	Demonstrate the use of internet and e-mail	<b>Use of internet and e-mail</b> a) Accessing the website b) Searching the internet for content c) Accessing the email and communicating with the help of it. d) Use of internet communication programs – skype	10	Lecture cum discussion  Demonstration	Short answer  Objective type  Practical exam

# MEDICAL SURGICAL NURSING- I

**Placement- Second Year**

**Time- 120 hours**

**Course Description:-**

This course shall help students understand the concept of disease and disease process, Students shall be able to gain knowledge and develop understanding of various medical, surgical disorders and disease. They shall be able to give comprehensive nursing care to patient with these diseases.

**General Objective:-**

Upon completion of this course, the students shall able to:

1. Describe the cause, symptoms, treatment and prevention of Medical Surgical Diseases.
2. Demonstrate skill in carrying out nursing technique and procedures with the applicant of scientific principles.
3. Discuss nursing process and provide nursing care to patients with medical surgical/ diseases.

**Total Hours - 120**

Unit No.	Learning Objectives	Content	Hr.	Method of Teaching	Assessment Methods
I	Explain the history of modern Medicine and Surgery	<b>Introduction</b> a) Brief history of evolution of modern medicine and surgery b) Theories of illness and its causation -Illness as human experience c) Review of Nursing process and Nursing care plan.	2	Lecture cum discussion	Short answer Objective type
II	Demonstrate skill in conducting health assessment and physical examination	<b>Nursing assessment</b> a) Health Assessment - Health history - Physical examination - Nutritional assessment - General clinical investigations	4	Lecture cum discussion  Demonstration  Simulation	Short answer Objective type Return demonstration
III	Describe the pathophysiological mechanism of diseases	<b>Pathophysiological mechanism of disease</b> a) Stress adaptation stressors, management, Nursing interventions b) Inflammation c) Defense against injury d) Nutritional consideration	2	Lecture cum discussion  Topic presentation	Short answer Essay type
IV	Demonstrate skill in providing nursing care to patients with altered immune response.	<b>Altered immune response</b> a) Overview of normal immune system b) Altered immune response, hypersensitivity and allergy c) Assessment of immune system d) Diagnostic evaluation e) Allergy disorders: - Anaphylaxis - Allergic rhinitis - Contact dermatitis - Atopic dermatitis	6	Lecture cum discussion  Clinical case presentation	Short answer Objective type Essay type

Unit No.	Learning Objectives	Content	Hr.	Method of Teaching	Assessment Methods
		<ul style="list-style-type: none"> <li>- Drug reactions</li> <li>- Food allergy</li> <li>- Serum sickness</li> <li>- Latex allergy</li> </ul> f) Approaches to treat allergic diseases g) Nursing management client with altered immune response h) Auto immune disease <ul style="list-style-type: none"> <li>- Rheumatoid arthritis</li> <li>- SLE</li> <li>- Ankylosing spondylitis</li> <li>- Graft versus host disease</li> </ul>			
V	Demonstrate skill in management of client with fluid and electrolyte imbalance.	<b>Fluid and electrolyte balance and Imbalance</b> a) Water contents of body, electrolyte and Acid – Base balance b) Homeostasis c) Review mechanism of regulating fluid and electrolyte movement d) Fluid and electrolyte Acid-Base imbalance and its management	4	Lecture cum discussion  Demonstration	Short answer  Objective type  Essay type  Return demonstration
VI	Describe physical set up of OT and its equipments. Demonstrate skill in theatre techniques.	<b>Operation theatre technique:</b> a) Physical Environment <ul style="list-style-type: none"> <li>- Operation theatre room - cleaning of tables, trolleys, lights and other equipments</li> <li>- Pre-operative holding areas.</li> </ul> b) Theatre Technique <ul style="list-style-type: none"> <li>- Scrubbing – Hand washing</li> <li>- Gowning</li> <li>- Gloving</li> <li>- Positioning of patient for various surgical procedures.</li> <li>- Draping of patient.</li> </ul> c) Preparation of theatre, equipment and supplies <ul style="list-style-type: none"> <li>- Cleaning</li> <li>- Needles, sutures – types and their uses.</li> <li>- Carbolization, ETO sterilization, fumigation, OT swab, Bacillocid sterilization.</li> <li>- Packing and sterilization of dressings, linen rubber ware suture material, instruments, needles and other materials.</li> </ul>	8	Lecture cum discussion  Explain about the instruments  Demonstration of OT techniques – scrubbing, gowning, gloving  Positioning and draping  Visit to CSSD	Short answer  Objective type  Essay type  Return demonstration
VII	Demonstrate skill in preparing the client for surgery.  Recognize and perform the role of nurse during surgery.	<b>Management of patient undergoing surgery</b> a) Pre operative preparation and care <ul style="list-style-type: none"> <li>- Physical</li> <li>- Psychological,</li> <li>- Pre-medications</li> <li>- Legal and ethical</li> </ul> b) Intra operative management <ul style="list-style-type: none"> <li>- Surgical Team</li> <li>- Nursing activities and responsibilities</li> <li>- Anesthetic agents</li> <li>- Role of nurse in anesthesia</li> </ul>	8	Lecture cum discussion  Demonstration  Videos	Short answer  Objective type  Essay type  Return demonstration

Unit No.	Learning Objectives	Content	Hr.	Method of Teaching	Assessment Methods
	Demonstrate skill in giving care to clients after surgery (post-operative care)	c) Post operative Management <ul style="list-style-type: none"> <li>- Immediate care</li> <li>- Transferring patient from operation theatre</li> <li>- Patient in recovery room</li> <li>- Recovery from Anesthesia</li> <li>- Post operative observation and nursing management</li> <li>- Carryout the post operative orders.</li> <li>- Postoperative complication observation, prevention &amp; management.</li> </ul>			
VIII	Demonstrate skills in the nursing management of client with impaired respiratory function and gaseous exchange	<b>Nursing management of patient with impaired respiratory function and gaseous exchange</b> <ol style="list-style-type: none"> <li>a) Assessment of respiratory function               <ul style="list-style-type: none"> <li>- History</li> <li>- Physical examination</li> <li>- Diagnostic evaluation</li> </ul> </li> <li>b) Care of patient in respiratory intensive care and ventilator care and respiratory function</li> <li>c) Management of Patient with disorders of upper respiratory airway.               <ul style="list-style-type: none"> <li>- Obstruction of upper airway</li> <li>- Epistaxis</li> <li>- Sinusitis</li> <li>- Pharyngitis</li> <li>- Tonsillitis</li> <li>- Laryngitis</li> <li>- Deviated nasal septum</li> </ul> </li> <li>d) Management of patient with disorders of the chest and lower respiratory tract</li> <li>e) Management of patient with impaired • Lung abscess               <ul style="list-style-type: none"> <li>- Empyema</li> <li>- Bronchial asthma</li> <li>- COPD</li> <li>- Pneumothorax</li> <li>- Pneumonia</li> <li>- Bronchitis</li> <li>- Bronchiectasis</li> <li>- Trauma</li> <li>- Pulmonary Tuberculosis/DOTS</li> <li>- Pulmonary embolism</li> <li>- Pulmonary edema</li> <li>- Lung tumors</li> <li>- Disorders of pleura and pleural space</li> <li>- Lung surgery</li> <li>- Respiratory failure</li> <li>- Acute respiratory distress syndrome,</li> <li>- SARS</li> </ul> </li> <li>f) Alternate therapies</li> <li>g) Drugs used in treatment of disorder of respiratory system</li> </ol>	15	Lecture cum discussion  Demonstration of various artificial respiratory devices  Simulation  Case discussion  Videos and Films	Short answer  Objective type  Essay type  Return demonstration

Unit No.	Learning Objectives	Content	Hr.	Method of Teaching	Assessment Methods
IX	Describe the various gastro intestinal disorders.  Demonstrate skill in providing care for clients with gastro intestinal disorders.	<p><b>Nursing management of patient with gastro intestinal disorders</b></p> <p>a) Assessment of gastro intestinal function</p> <ul style="list-style-type: none"> <li>- History</li> <li>- Physical examination</li> <li>- Diagnostic evaluation</li> </ul> <p>b) Management of Upper gastrointestinal disorders</p> <ul style="list-style-type: none"> <li>- Parotitis</li> <li>- Stomatitis</li> <li>- Glossitis</li> <li>- Gingivitis</li> <li>- Pyorrhea</li> <li>- Dental caries</li> <li>- Halitosis</li> <li>- Dysphagia</li> <li>- Achalasiacardia</li> <li>- Gastro Esophageal Reflux Disease (GERD)</li> <li>- Cancer of esophagus</li> <li>- Hiatus hernia</li> <li>- Gastritis</li> <li>- Gastric and duodenal ulcers</li> <li>- Gastric cancer</li> <li>- Gastroenteritis</li> <li>- Esophageal fistula</li> <li>- Peritonitis</li> </ul> <p>c) Care of patient with gastro intestinal intubation and special nutritional management.</p> <p>d) Management of patient with lower gastro intestinal disorders:</p> <ul style="list-style-type: none"> <li>- Helminthiasis</li> <li>- Constipation</li> <li>- Diarrhea</li> <li>- Fecal incontinence</li> <li>- Irritable Bowel Syndrome (IBS)</li> <li>- Appendicitis</li> <li>- Diverticular disease</li> <li>- Crohn's disease</li> <li>- Ulcerative colitis</li> <li>- Intestinal obstruction</li> <li>- Colitis</li> <li>- TB abdomen</li> <li>- Colorectal cancer</li> <li>- Polyps of colon and rectum</li> <li>- Ano rectal abscess</li> <li>- Anal fistula and fissure</li> <li>- Hemorrhoids</li> </ul> <p>e) Alternate therapies</p> <p>f) Drugs used in treatment of GI disorders</p>	18	<p>Lecture cum discussion</p> <p>Visit to endoscopy room, radiology department</p> <p>Demonstration</p> <p>Films and Videos</p>	<p>Short answer</p> <p>Objective type</p> <p>Essay type</p> <p>Return demonstration</p>

Unit No.	Learning Objectives	Content	Hr.	Method of Teaching	Assessment Methods
X	Describe the management of patients with metabolic and endocrinal disorders. Demonstrate skills in caring for the clients with metabolic and endocrinal disorders.	<p><b>Nursing management of patients with metabolic and endocrinal disorders:</b></p> <p>a) Assessment of Hepatic and biliary functions</p> <ul style="list-style-type: none"> <li>- History</li> <li>- Physical examination</li> <li>- Diagnostic measures</li> </ul> <p>b) Management of patients with hepatic disorders</p> <ul style="list-style-type: none"> <li>- Jaundice</li> <li>- Hepatic cirrhosis</li> <li>- Portal hypertension</li> <li>- Ascites</li> <li>- Hepatic Encephalopathy and coma</li> <li>- Viral hepatitis</li> <li>- Tumors and cyst of the liver</li> <li>- Liver abscess</li> </ul> <p>c) Management of patients with biliary disorders</p> <ul style="list-style-type: none"> <li>- Cholecystitis</li> <li>- Cholelithiasis</li> <li>- Choledocolithiasis</li> <li>- Acute and chronic pancreatitis</li> <li>- Cancer of pancreas</li> </ul> <p>d) Assessment of Endocrinal function</p> <ul style="list-style-type: none"> <li>- History</li> <li>- Physical examination</li> <li>- Diagnostic evaluation</li> </ul> <p>e) Management of endocrinal disorders</p> <ul style="list-style-type: none"> <li>- Pituitary disorders</li> <li>- Thyroid disorders <ul style="list-style-type: none"> <li>• Hyperthyroidism</li> <li>• Hypothyroidism</li> <li>• Thyroid tumors</li> <li>• Goiter</li> </ul> </li> <li>- Parathyroid disorders</li> <li>- Pancreas disorder <ul style="list-style-type: none"> <li>• Diabetes mellitus</li> </ul> </li> <li>- Adrenal disorders <ul style="list-style-type: none"> <li>• Pheochromocytoma</li> <li>• Addison's disease</li> <li>• Cushing's syndrome</li> </ul> </li> <li>- Tumors of the endocrine glands</li> </ul> <p>f) Alternate therapies</p> <p>g) Drugs used in treatment of metabolic and Endocrine disorder</p>	15	Lecture cum discussion  Charts  Simulation  Clinical teaching  Exposure to diagnostic procedures  Videos and Films	Short answer  Objective type  Essay type
XI	Describe the management of clients with urinary and renal disorders. Demonstrate skill in giving care of client with urinary and renal disorders	<p><b>Nursing management of renal and urinary disorders</b></p> <p>a) Assessment of renal and urinary functions</p> <ul style="list-style-type: none"> <li>- History</li> <li>- Physical examination</li> <li>- Diagnostic evaluation</li> </ul> <p>b) Management of patients with renal and urinary disorders</p> <ul style="list-style-type: none"> <li>- Urinary retention and incontinence</li> <li>- Urinary tract infection</li> </ul>	14	Lecture cum discussion  Clinical teaching  Visit to Dialysis unit  Videos and Films	Short answer  Objective type  Essay type

## MEDICAL SURGICAL NURSING- II

**Placement- Second Year**

**Time- 120 hours**

**Course Description:-**

This course shall help students understand the concept of disease and disease process, Students shall be able to gain knowledge and develop understanding of various medical surgical specialty disorders and disease. They shall be able to give comprehensive nursing care to patient with these diseases.

**General Objective:-**

Upon completion of this course, the students shall able to:

1. Describe the cause, symptoms, signs, treatment and prevention of diseases classified under medical Surgical Specialties.
2. Demonstrate skill in carrying out nursing technique and procedures with the applicant of scientific principles.
3. Prepare nursing care plan using nursing process and apply it in provide care to patient with these diseases.

**Total Hours - 120**

XI	Identify the role of nurses in emergency and disasters.  Demonstrate beginning skill in managing the Emergencies and disasters.	<b>Emergency and Disaster Nursing</b> a) Natural calamities - Flood - Earthquake - Volcanic eruptions b) Man-made disaster - Explosion - War - Fire - Accidents c) Emergency preparedness d) Community resources available to meet calamities e) Nurses role in disaster management	05	Lecture cum discussion  Role play  Mock drill INC: Disaster management module:  Reaching out: nursing care	Short answer  Objective type  Essay type

## MEDICAL SURGICAL NURSING- PRACTICAL

**Placement- Second Year**

**Time: 800 hours (20 weeks)**

**General objectives:**

Students are able to apply nursing process and provide comprehensive nursing care to the clients with various medical and surgical conditions

**Specific objectives; students are able to;**

1. Comprehend the causes, signs and symptoms, treatment and prevention of various medical, surgical conditions.
2. Apply the theoretical knowledge to appropriate clinical nursing practice.
3. Identify the problems and needs, prioritize them and provide comprehensive nursing care by applying nursing process
4. Demonstrate skills in carrying out nursing techniques, procedures in keeping with scientific principles.
5. Demonstrate skills in respective clinical specialty.
6. Interpret and carry out the pharmacological intervention,
7. Identify the deviation from normal in the diagnostic value.
8. Plan and participate in rehabilitation of patient and family.

# MIDWIFERY AND GYNECOLOGICAL NURSING

**Placement- Third Year**

**Time- 140 hours**

Midwifery- 120 hours

Gynecological Nursing- 20 hours

## MIDWIFERY

### Course Description:-

This course is designed to help students acquire knowledge and gain skills to meet the needs of women during pregnancy, labor and puerperium and care for the newborn.

### General Objective:-

Upon completion of this course, the students shall able to:

1. Describe the health needs of women in pregnancy, labour and puerperium.
2. Identify deviation(s) from normal pregnancy, labour and puerperium and take appropriate action.
3. Demonstrate skills in providing antepartum, intrapartum and postpartum care to the mother as well as care to the new born as per the SBA guidelines of Government of India.

**Total Hours:120**

Unit No.	Learning objectives	Contents	Hr	Teching learning Activities	Assessment methods
I	Describe the scope and trends in midwifery	<b>Introduction:</b> a) Definition of midwifery and obstetrical nursing b) Scope of midwifery c) Basic competencies of a midwife d) History of midwifery e) Trends of maternity services in India f) Vital statistics related to maternal health in India.	4	Lecture cum discussions  Videos	Short answers  Objective type  Essay type
II	Describe the anatomy and physiology of female reproductive system	<b>Reproductive system</b> a) Review of structure and function of female reproductive system b) Female pelvis –structure, types and diameters	5	Lecture cum discussions  Demonstrations  Charts,  Specimen  Models & Objects	Short answers  Objective type  Essay type  Viva

Unit No.	Learning objectives	Contents	Hr	Teching learning Activities	Assessment methods
III	Describe the stages of Embryological and fetal development	<b>Embryology and foetal development</b> a) Oogenesis, spermatogenesis, fertilization and implantation. b) Embryology and Fetal development c) Placenta and membranes: - Structure - Functions - Abnormalities - Liquor amni - Umbilical cord d) Fetal skull: - Structure - Diameters - Fontanel and sutures e) Fetal circulation	8	Lecture cum discussions  Charts  Models & Objects  Specimens	Short answers  Objective type  Essay type  Oral presentation
IV	Describe the physiological changes in pregnancy and the management of normal pregnancy  Demonstrate skill is caring for pregnant women	<b>Normal pregnancy and its management</b> a) Pre-conception care b) Genetic counseling c) Physiological changes in pregnancy d) Diagnosis of pregnancy - History - Signs & symptoms e) Antenatal care: - History taking - Calculation of expected date of delivery, - Examination and investigations - Health Education and counselling - Drugs and immunizations f) Minor disorders and their management	12	Lecture cum discussions  Demonstration  Clinical teaching  Simulation Charts & Videos  SBA module of government of India, handbook for staff nurses (Government of India)	Short answers  Objective type  Essay type  Assessment of skill using checklist
V	Describe the various stages of labour and the role of the midwife in caring for a woman in labour Demonstrate skill in conducting the normal delivery	<b>Normal labour and its management</b> a) Definition and stages b) Causes and signs of onset of labour c) True and false labour d) First stage of labour: - Physiology - Monitoring using partograph and its interpretation - Care of mother : physical and psychological - Pain management - Setting up of the labour room including newborn corner	18	Lecture cum discussions  Demonstrations  Case studies  Simulation  Videos  Exercises SBA module of government of India, handbook for staff nurses (Government of India)	Short answers  Objective type  Essay type  Assessment of skill using checklist

Unit No.	Learning objectives	Contents	Hr	Teching learning Activities	Assessment methods
		e) Second stage: <ul style="list-style-type: none"> <li>- Physiology and mechanism</li> <li>- Monitoring</li> <li>- Conduction of normal delivery</li> <li>- Episiotomy</li> <li>- Essential newborn care</li> </ul> f) Third stage: <ul style="list-style-type: none"> <li>- Physiology and signs</li> <li>- Active management of third stage</li> <li>- Examination of the placenta</li> <li>- Episiotomy suturing</li> </ul> g) Fourth stage: <ul style="list-style-type: none"> <li>- Physiology</li> <li>- Care of the mother and baby</li> <li>- Postpartum family planing</li> </ul>

XIII	Describe the midwife's role in the administration of drugs for women during pregnancy, labour and post partum period	<b>Drugs used in obstetrics</b> a) Indication, dose, action, contraindication, side effects and responsibilities in the administration of : <ul style="list-style-type: none"> <li>- Oxytocin</li> <li>- Uterotonics</li> <li>- Tocolytics</li> <li>- Antihypertensives</li> <li>- Anticonvulsants</li> <li>- Anesthesia and analgesia</li> </ul> b) Drugs used for newborn c) Teratogens – effects of drugs on mother and baby.	4	Lecture cum discussion  Drug presentation	Short answers  Objective type  Essay type
XIV	Describe the ethical & legal issues related to midwifery	<b>Ethical and legal aspects related to midwifery</b> a) Maternal and newborn death review b) Mother and child tracking system	2	Lecture cum discussion  Presentation	Short answers  Objective type

## GYNECOLOGICAL NURSING

### Course objective

The students shall be able to identify different gynecological disorders and diseases and gain skills in providing nursing care to women suffering from them.

### General Objective:-

Upon completion of this course, the students shall able to:

1. List different gynecological problems and demonstrate skills in providing nursing care to women suffering from these disorders and diseases.

**Total Hours:20**

Unit No	Learning objectives	Content	Hours	Teaching learning activities	Method of assessment
I	Define the terms used in gynecology  Demonstrate the skills of gynecology history taking, conducting examination & investigation	<b>Introduction</b> a) Definition of terms b) History c) Examination d) Investigation	2	Lecture cum discussion  Demonstration  Videos	Short answers  Objective type  Essay type  Return demonstration
II	Describe the physiology, psychology and pathology of puberty	<b>Puberty</b> a) Definition b) Development of sex organs in females and sexuality c) Review of menstrual cycle d) Premenstrual syndrome e) Disorders of menstruation, dysmenorrhoea, cryptomenorrhoea, dysfunctional uterine bleeding	3	Lecture cum discussion  Clinical teaching  Videos  Charts	Short answers  Objective type  Essay type
III	Describe the management of couples with fertility related problems.	<b>Fertility and infertility</b> a) Definition b) Causes-both in male and female c) Investigation d) Management e) Artificial reproductive techniques	2	Lecture cum discussion  Clinical teaching,  Videos  Role play	Short answers  Objective type  Essay type

Unit No	Learning objectives	Content	Hours	Teaching learning activities	Method of assessment
IV	Demonstrate skills in the management of clients with various pelvic infections.	<b>Pelvic infections</b> a) Vulva – vulvitis, bartholinitis b) Vagina - Vaginitis, Trichomonas vaginitis, Moniliasis, c) Metritis, Salpingitis, Oophritis d) Cervical erosions e) Pelvic Abscess f) Chronic infection g) Pelvic inflammatory disease h) Pelvic tuberculosis i) Sexually Transmitted Diseases - Syphilis - Gonorrhoea - Warts - HIV j) Syndromic case management	4	Lecture cum discussion  Clinical teaching  Videos  Prevention of STI module of NACO	Short answers  Objective type  Essay type
V	Describe the care of women with gynaecological disorders	<b>Gynaecological disorders</b> a) Retroversion, retro flexion b) Fistulas c) Uterine displacement & prolapse (Procidentia) d) Uterine malformations e) Cysts and fibroids f) Uterine polyps g) Tumors of the reproductive tract – benign and malignant h) Palliative care and rehabilitation	5	Lecture cum discussion  Case Presentation  Demonstration	Short answers  Objective type  Essay type
VI	Describe the care of the woman with breast disorders	<b>Breast disorders</b> a) Review mastitis, breast engorgement, breast abscess b) Tumors of the breast benign and malignant	2	Lecture cum discussion  Clinical teaching,  Videos  Role play	Short answers  Objective type  Essay type
VII	Describe the care of women with menopause	<b>Menopause</b> a) Definition and physiological changes b) Signs and symptoms c) Health education and counselling d) Hormone replacement therapy e) Surgical menopause	2	Lecture cum discussion  Case histories.	Short answers  Objective type  Essay type

**Time: 120 Hours**

Nursing Education- 20 hours

Introduction to Research- 30 hours

Professional Trends and Adjustment- 30 hours

Nursing Administration and Ward Management- 40 hours

## NURSING EDUCATION

### Course Description:-

This course is designed to introduce the students to the concept of teaching as an integral part of nursing practice.

### General Objective:-

Upon completion of this course, the students shall able to:

1. Explain the concept of teaching
2. Describe techniques used for teaching.

**Total Hours: 20**

Unit	Learning objectives	Contents	Hr	Teaching learning activities	Method of Assessment
I	Describe the concept of education	<b>Introduction</b> a) Education - Meaning, aims, scope and purposes,	2	Lecture cum discussion	Short answers Objective type
II	Explain the process of teaching and learning	<b>Teaching learning process</b> a) Basic principles b) Characteristics of teaching and learning c) Teaching responsibility of a nurse d) Preparation of teaching plan	4	Lecture cum discussion	Short answers Objective type Evaluation of teaching plan
III	Narrate the methods of teaching Describe the clinical teaching methods	<b>Methods of teaching</b> a) Methods of teaching b) Clinical teaching methods - Case method - Bed side clinic - Nursing rounds - Nursing conference ( individual and group) - Process recording.	14	Lecture cum discussion	Short answer Objective type Evaluation of planned as well as incidental health teaching

## INTRODUCTION TO RESEARCH

### Course Description:-

This course is designed to develop fundamental abilities and attitude in the students towards scientific methods of investigation and utilization of research finding so as to improve practice of nursing.

### General Objective:-

Upon completion of this course, the students shall able to:

1. Describe the use of research in the practice of nursing
2. Describe the scientific methods of investigation used in nursing.
3. Participate in research activities in the health care settings.

**Total Hours: 30**

Unit	Learning Objectives	Contents	Hr.	Teaching learning activities	Assessment Method
I	Discuss the importance of research in Nursing	<b>Introduction</b> a) Definition b) Terminology related to research c) Need and importance of nursing research d) Characteristics of good research	3	Lecture cum discussion	Short answers  Objective type
II	Describe the research process	<b>Research process</b> a) Purposes and objectives b) Steps in research process	3	Lecture cum discussion	Short answer  Essay type
III	Describe the various research approaches	<b>Research approaches and designs</b> a) Types b) Methods c) Advantages and disadvantages	5	Lecture cum discussion	Short answer  Essay type
IV	Describe the various data collection methods	<b>Data collection process</b> a) Meaning b) Methods and instruments of data collection	5	Lecture cum discussion	Short answer  Essay type
V	List the steps involved in data analysis	<b>Analysis of data</b> a) Compilation b) Tabulation c) Classification d) Summarization e) Presentation and interpretation of data using descriptive statistic	6	Lecture cum discussion  Reading the research articles	Short answer  Essay type
VI	Describe the importance of statistics in research	<b>Introduction to statistics</b> a) Definition b) Use of statistics c) Scales of measurement d) Frequency distribution e) Mean, median, mode and standard deviation.	6	Lecture cum discussion	Short answer  Essay type
VII	Describe the utilization of research in nursing practice	<b>Utilization of research in nursing practice</b> - Evidence based practice	2	Lecture cum discussion	Short answer  Essay type

## PROFESSIONAL TRENDS AND ADJUSTMENT

### Course Description:-

This course is designed to help students develop an understanding of the career opportunities available for professional development.

### General Objective:-

Upon completion of this course, the students shall able to:

1. Describe nursing as a profession.
2. Identify various professional responsibilities of a nurse.
3. Describe various professional organizations related to nursing.
4. Identify the need for in-service and continuing education in nursing
